Samuel J. Taylor to Quit the Services of the Oakland Traction Company

Secretary of Corporation Declines to Give Reasons for Resignation

The rumor that Samuel J. Taylor, secretary of the Oakland Traction Company and kindred concerns, had resigned his position which was referred to exclusively in THE TRIBUNE yesterday, proves to have been well founded. Secretary Taylor admitted today that he had tendered his resignation.

"I have," he said, "tendered my resignation to F. M. Smith, chairman of the executive committee of the company. I do not know that there has been any date set for a meeting of that body. It is before the committee and pending its action I have nothing to say. It would be improper for me to make any reference as to what I may do or who may succeed me while the subject is before the officers."

It is understood that Taylor's resignation is dated to take effect June 15, but Taylor would neither admit nor deny this.

F. M. SMITH TO GO EAST.

As F. M. Smith expects to leave tomorrow with his family for his summer vacation in the east, and as E. A. Heron, president of the Oakland Traction Company, was not expected to arrive from a trip east until today, the action by the executive committee on the resignation may be indefinitely deferred.

Samuel J. Taylor was not alone secretary of the Oakland Traction Company, but also of the Oakland Realty Syndicate and the San Francisco, Oakland & San Jose railway, the duties of which positions he has performed with signal ability for many years. There is considerable speculation as to the cause of the resignation. Some local financiers say it was occasioned by the division of the forces of the traction company which was inaugurated when that company became one of the auxiliary corporations of the United Properties Company of California, which resulted in several of the former attaches of the traction company being transferred to the San Francisco office of the United Properties concern. This later was followed by the retirement from the position of general manager of the traction company of W. F. Kelly and the placing on the shoulders of W. R. Alberger the duties of management in connection with those of the vice-presidency of the traction company and the United Properties Companies of California, which position he had previously held.

Others declare that Taylor has been contemplating for some time engaging in commercial life. He is a member of the Taylor Paper Company of San Francisco, with which two of his brothers are prominently connected. The announcement of the resignation has caused surprise in some sections but not in others in which the people are well informed as regards the conflicting interests which occasioned the dissolution of the financial partnership which had existed so long between F. M. Smith and Frank C. Havens.

Taylor has been connected with the traction company for fourteen years. For a number of years his office was in the First National Bank building, but after the merger it was consolidated with the other operative offices of the Oakland Traction Company in the headquarters of the concern at the intersection of Grove and Twenty-first streets and San Pablo avenue.

Coal Passers Strike,
Delaying Big Liners

St. Paul and Olympic Are Held at Southampton Docks by Lack of Crew.

SOUTHAMPTON, England, June 9.—A strike of coal passers broke out here today. The American line steamer St. Paul, scheduled to sail for New York tomorrow, will be delayed and the mammoth White Star liner Olympic is having difficulty in obtaining a crew. A whole fleet of ships chartered by the government and others for the naval review is lying off the port unable to take on coal.

Imposing Funeral of Rev. Cecil Mortimer Marrack Attended by Hundreds

'Little Church Around the Corner' Crowded With Sorrowing Friends

SAN FRANCISCO, June 9.—Mourned by men and women in every walk of life, attended by nearly twenty-five clergymen and with the sacred rites and solemn ceremony of the Episcopal Church, the Rev. Cecil Mortimer Marrack, rector of St. Stephen's parish, was laid to rest at Cypress Lawn cemetery this morning.

The young clergyman, cut off in the prime of manhood and at the outset of his career, was beloved by many who were not of his own faith, nor numbered among his congregation.

Horried at the unfortunate accident at Ross Valley on Tuesday, which almost instantly killed the minister and injured his associates, those who had known him in his lifetime, crowded into the "little church around the corner," as his parish (Continued on Page 2, Col. 6-7)

KOHL'S CONDITION SERIOUS;
ASSAILANT IS HYSTERICAL

To Use the X-Ray in Effort to Locate Bullet

SAN FRANCISCO, June 9.—C. Frederick Kohl, the millionaire who was shot yesterday afternoon at the Grant building by Adele Verge, is in a very serious condition at Adler sanatorium. Although he rested fairly well during the night, he woke up to a spasm of pain and suffering this morning and the physicians, Dr. H. C. Moffitt, Dr. L. W. Thorne and Dr. W. I. Terry, looked with grave eyes upon their patient when they visited the hospital today.

The bullet entered the middle of the chest, considerably below the heart. An effort will be made to locate it today by the use of the X-ray. The sorrowing wife of the stricken man remains close to his bedside.

WOMAN HYSTERICAL.

Adele Verge, hysterical and showing the effects of a night of worry and of reckless pacing to and fro in her narrow cell at the city prison, said this morning that she had been persecuted by Frank Miller and Kohl. "I've been shadowed by their detectives for a long, long time," she wailed. "They followed me to Portland about a year ago and I was forced to leave at 1 o'clock in the morning to avoid them. They seemed to be always on my trail. I came to San Francisco and took lodgings at a Turk street house. I had a revolver (Continued on Page 2, Col. 4)

1537 KILLED IN
EARTHQUAKE
IN MEXICO

Scores of Cities and Towns Are Badly Wrecked

MEXICO CITY, June 9.—A new and terrible earthquake shock occurred in the southern and western sections of Mexico shortly after 5 o'clock last evening. It was of five minutes' duration and was distinctly felt here. All communication with Acapulco is cut off. That city is reported destroyed.

Tehuacan and Coahuila are also reported destroyed, but details are meager.

Colima is in frightful eruption. The big cathedral in the city of that name is destroyed together with many homes and business properties.

LAVA POURS FROM CRATER.

The city is practically in ruins. Texco, in the state of Guerrero, is a total wreck, and Tonila, state of Colima, is one mass of flames. Popocatepetl also is in full eruption, great cones of smoke, hovering over the immense crater and lava pouring down the sides of the mountain.

Fifteen hundred and thirty-seven persons killed; 41 cities, each with a population of more than 1500, damaged; 70 towns entirely demolished—that is the result of Wednesday's temblor as compiled from reports received here.

In the state of Colima five towns were destroyed within a radius of 20 miles. The city of Colima is itself rapidly being destroyed by flames.

A special train from this city took 20 nurses and doctors and supplies to Apollan, in the state of Jalisco, where 400 have been taken out of the ruins, dead and injured. Many more dead are not yet taken from the ruins of fallen buildings.

SOLDIERS TURN NURSES.

The entire rebel army of the south has been tendered as nurses by order of General Alfonso Miranda, who is here. Thirteen thousand men are distributing such food as can be had, helping to rebuild homes to shelter the homeless, care for the injured and bury the dead.

MEXICO CITY, June 9.—A dispatch from Guadalajara dated the 7th and relayed by wire interruptions caused by the earthquake, says that the city was shaken by a tremor lasting more than one minute. In consequence the tower of the Church of San Francisco threatens to fall and entry to the church has been forbidden. There are no casualties at Guadalajara.

FAYETTE CITY, Pa., June 9.—Licking postage stamps for patrons of the government is the cause of a serious case of blood poisoning of Miss Grace Hamilton, clerk in the postoffice here, according to her physicians. She has been in the habit of affixing the stamps to letters for patrons and while her lip was blistered, it is said, it became infected from the colored inks.

Attorneys for the Rival Police Chiefs Argue Before Judge Seawell

Court Asks Information as to Power of Commission to Suspend Seymour

SAN FRANCISCO, June 9.—With Superior Judge Seawell reserving his decision on the writ of review, the writ of prohibition and the restraining order issued by him and completely tying the hands of the police commissioners and acting Chief of Police D. A. White, Attorney Theodore Bell and Attorney Peter F. Dunne argued at length pro and con in the Seymour case this morning. At the outset the court asked to be enlightened on several points, chief among which was whether the commissioners had the power to appoint an acting chief after they had suspended the regular chief.

POWER TO FILL VACANCY.

Attorney Bell complying with the request, began to "take up" the several points in detail. He argued that it was the policy of the law to give power to fill any vacancy which had been created and that it was consistent with the highest interest of the public service when one man ceases to hold an office to appoint an officer to serve in his position.

"Why should the commissioners appoint rather than the mayor for instance?" interrupted the court. "Because the power of control of discipline, of promotion, of appointment—all these powers are invested in the police commissioners," replied Bell. "The next question is that of injunction. The injunction restrains D. A. White from going and taking Seymour by the throat and throwing him out. It restrains him from calling upon his officers and commanding possession of Seymour's office. It restrains him from taking possession of the insignia of office, the books and papers and other appurtenances thereof."

NO VIOLENCE OFFERED.

"Well, assuming that the court can grant an injunction to restrain violence, we will say that counsel cannot cite one case in which a court has been upheld in granting an injunction for any other purpose except to prevent violence."

"We have furnished your honor with a verified answer in which we deny that force or violence was attempted or intended. We believe, however, that the court should make an order modifying the injunction; that the court should sweep aside this wholesale injunction which prevents D. A. White from even going out and saying to a man, 'I am chief of police.' Why the commissioners cannot even discuss it at their breakfast tables, even discuss it at their breakfast tables."

"Seymour has been charged with wilful misconduct in office, wilful neglect of duty."

CALIFORNIA
LIMITED IS
WRECKED

Dying Persons Cut From the Wreckage and Placed on Ground in Open

Several Trainmen Are Among the Dead and the Badly Injured

ALBUQUERQUE, N. M., June 9.—Santa Fe passenger train No. 3, known as the California limited, the fastest train on the Santa Fe system, due here at 11:20, collided with a train of the Santa Barbara Pole company near Domingo, 30 miles north of here, at 10:45 o'clock this morning and six persons are reported dead.

At 2 p.m. the list of badly injured was reported as between 25 and 30. There are five or six probably fatally hurt.

The limited train was loaded with California tourists. The company here declines to give out information, but that the wreck is very serious is shown by the fact that a train of nine cars carrying hospital supplies and surgeons left here at 11:30 o'clock for the scene.

A. W. Green, engineer on the limited, is fatally hurt. Two members of the train crew, names unknown, died about noon. A mistake in orders is supposed to have been responsible for the wreck.

The wounded are laid out on the right of way awaiting the relief train which is expected any minute.

The wreck occurred at a sharp curve. The engines were demolished. The tender, baggage, express car, diner and one coach of the limited piled up in the ditch, and the passengers were forced to chop away the debris to release a number of badly injured.

Inspectors Capture \$4000
Worth Contraband Opium

SAN FRANCISCO, June 9.—Another important seizure of opium was made today on the arrival of the steamer Tenyo Maru at the Pacific Mail Dock. A force of custom inspectors and secret service men boarded the vessel and began a careful search. Inspectors Tidwell, Dean and Smith discovered in the engine room about \$4000 worth of the drug which was promptly confiscated.

The search has only just begun and it may be that larger quantities may be found in more out of the way places. The American Maru, the last boat of the line to dock, was discovered to have \$80,000 worth of opium on board. An organized ring is in existence to smuggle the drug.

Knocked From Seat on
Roller Coaster and Mangled

REVERE, Mass., June 9.—Hanging to his feet to caution a passenger on a roller coaster to beware of a dangerous curve, Oscar F. Young, manager of the amusement enterprise, who was guiding one of the cars, was knocked from his seat last night and terribly mangled. He will die. The accident occurred high up on the coaster in plain view of 8000 pleasure-seekers at the Revere Beach boulevard, and a panic followed. As a result of the accident coupled with the fact that there has been one other death on the coaster already this year, the license of the company will be revoked.

PAINT PRODUCERS WANT TO BID ON CITY HALL JOB

A special meeting of the paintmen of this city was held last night at the Chamber of Commerce, at which E. G. Burwell Jr. of the Buswell Paint Company, A. H. Irving of the Parfitt Paint Company and O. S. Orlick Jr. of the California Paint Company were present. It was the sense of the meeting that specifications in the plans for the paint to be provided for use on the structural steel work on the new city hall is not

specific enough. Resolutions were adopted requesting the change in the specifications to the purpose that local paint houses may have an opportunity to bid. The gathering was called by the manufacturers and producers' committee of the Chamber of Commerce. Chairman Parsons presided.

JOY TO RULE CHERRY FETE

Boom of Cannon to Usher In Day at San Leandro

SAN LEANDRO, June 9.—With a blaze of incandescent lights strung along the principal streets and from house top to house top, San Leandro's festival of cherries will open tonight. Mayor J. J. Gill, as he has done for the three last years, will once again press the button in the city hall which will throw the city under the glow of the lights and signal the beginning of the reign of joy.

Fireworks and rockets will be set off in the center of the town plaza as a signal to the county that the opening night of the fruit carnival is at hand. The real fun will not begin until tomorrow evening, however.

BOOM OF CANNON.

The day will be heralded in with a boom from the old cannon in the town plaza at 6 o'clock. At 8 o'clock a large American flag will be hoisted to its place on the highest flagpole in the state and a pole that has done duty on many similar occasions and has looked down for years on a town that is known throughout the state for its superior fruit.

Queen Mabel will ascend her throne in the plaza, accompanied by King Don Alonzo, at 11 o'clock. At that time as she stands under the bower of cherries and flowers to be crowned, Mayor Gill will pass her the keys to the city and bid her to allow carnival spirit to reign supreme throughout. For the rest of the day King Cherry will reign hand in hand with carnival spirit.

AFTERNOON PARADE.

The parade will begin in front of the plaza at 2:30 o'clock in the afternoon. Led by Grand Marshal Charles Reid and his many aids, the king and queen will ride through the city on their royal float and scatter their blessings over the heads of their subjects.

In this parade the members of the Equal Suffrage league of Alameda county will march. Seven automobiles have been hired for prominent suffragists.

'I Don't Have to Be Interviewed,' She Says

Miss Anne Morgan Refuses to Talk for Publication as She Sails for Europe.

NEW YORK, June 9.—Miss Anne Morgan, daughter of J. Pierpont Morgan, who sailed for Europe yesterday on the La Provence, had to take her turn with other notables in the customary-sailing hour interviews. She was asked if she had read what E. H. Gary, chairman of the United States Steel corporation board, had said about her father's "power for good or evil in the financial world."

"I suppose I'll have to read it, won't I, whether or not I like that sort of reading?" she said. "Now, see here, my father and brother have to be interviewed, but I don't, and they say: 'If you can make an interview out of this, you are a wonder.'"

U.S. Wheat Crop To Break Records

The Government's June Report Shows Estimate of 764,291,857 Bushels.

WASHINGTON, June 9.—A wheat crop, the like of which never has been harvested, will be gathered in the United States this season if conditions indicated by the government's June crop reports continue throughout the growing season. Agricultural experts estimate the crop this year will amount to 764,291,857 bushels, an increase of 68,845,857 bushels over that gathered last year. Of winter wheat, the indicated yield is almost 480,000,000 bushels and that of spring wheat 284,000,000 bushels.

Reports Favorably On Honduras Treaty

Loan of \$10,000,000 From U. S. Banks Provided for by the Senate Committee.

WASHINGTON, June 9.—The Senate committee on foreign relations today decided to report favorably the treaty between Honduras and this country, providing a loan of \$10,000,000 from banking interests of the United States to meet the Honduran debt. Of this amount \$7,500,000 is to be forthcoming at once. The Nicaraguan treaty, in import, has not yet been acted upon.

and a police whistle. I hadn't been there but a few days when three men broke into the room and beat me. I blew the whistle and they fled. I have repeatedly tried to get work, but it seems as if they were always ahead of me. I went to another lodging house.

A few days later the detectives came and told the people I was crazy. I had to leave. I was practically driven forth. Then I thought I would go to Yosemite. There was a detective on the train. I came back and went to Santa Rosa. The detectives were there.

APPEALED TO POLICE.

"Every time I got work they interfered and I was discharged. I think the detectives were hired by Miller and Kohl. I became reckless. I went to Chiefs Cook, Martin and Seymour during the two years and half of my persecution, but the detectives told them that I was crazy. I also went to Fickert, but he wouldn't help me."

The woman added that she did not want Kohl to die.

INSANE, SAYS MILLER.

Frank Miller, the wealthy owner of the Glenwood Mission Inn at Riverside, declared the woman was undoubtedly insane and praised the generous attitude that Kohl had taken throughout the whole affair in dealing with her. Miller sketched the history of the early troubles as follows:

"The Kohls came down to Riverside and were staying at my hotel on account of the illness of Mrs. William Kohl. Her daughter had just died and she was recovering but slowly from the shock. This Adele Verge accompanied them as ladies' maid."

"When my hotel physician told me the girl had a fixed delusion, after she had twice created scenes in the hotel dining room, I went to Mr. Kohl and told him I would have to get her out of the house. I know an insane person when I see one, because for several years I have been a trustee of the Patton insane asylum in Southern California."

"At the hearing in Riverside, Judge Bledsoe said from the bench that although the law required that he turn her loose, he knew she was demented."

KNOWN IN THE EAST.

PHILADELPHIA, June 9.—C. Frederick Kohl, the San Francisco millionaire who was shot by a French maid yesterday, resided in this city several years. His first wife was Miss Edith Dunlap of Philadelphia, who was married to him in 1896 and who died in New York following an operation for appendicitis in 1901. Kohl has many friends here and the warning him of the existence of gambling dens in which her husband was wasting away his substance.

"The court cannot determine the merits of those charges. It would be a nullification of the charter provisions of this city, and I say to the men who argue for such nullification that the ghost will come back to haunt those very men who will bring these arguments to bear. We warn counsel now that in the event of the conviction of the chief we will contend that the amendments of 1907 and 1911 which attempt to place in the hands of the courts the power to review the decisions of boards, are contrary to the constitution of the state. They have another remedy, however, to demand. They can also resort to mandamus."

REGARDING JURISDICTION.

"We assert that there is no excess of jurisdiction here. We ask that the writ of review be discharged, that the injunction be limited, and that the writ of prohibition be dismissed."

Attorney Dunne followed Bell and be-

duty. It is alleged that gambling has been conducted in certain clubs and that he has failed to apprehend or punish the guilty parties. Reference is made to Mrs. Postler calling upon the chief and

San by pointing out that the chief of police was appointed for four years, and that the power of suspension had been omitted in the charter.

"If, in this particular case, if your honor please," he continued, "this board has no jurisdiction to try these charges, they have no jurisdiction in any event to suspend the chief. This is a quasi criminal proceeding and the board is one of limited power. Under the charter they are required to specify their charges with great particularity."

OPPOSING ARGUMENT.

Continuing, counsel argued that the accusations were not specific enough and referred to several cases in one of which it was held that the governor of the state of Michigan had not the power to remove an appointive officer without direct and specific charges.

In his opening statement, Judge Seawell addressed counsel as follows:

THE POWER TO SUSPEND.

"Is the power to suspend vested in the police commission? The charter does not so state. It was the evident intention of the framers to include it but they did not do so. The question remains, have they the implied power to suspend and therefore to appoint during the suspension? I desire to hear arguments on this question."

UNDER ADVISEMENT.

Attorney Dunne, continuing his argument, declared that there was nothing in the Whitehead charges that justified any discussion. He said he would not argue upon them. At the conclusion of his speech, Attorney Charles Hanlon, for the commissioners, began an argument which lasted until after 1 o'clock. He asserted that although San Francisco was rife with crime, Chief Seymour had not lifted a finger to prevent it.

Attorney Bell finally summed up and the court finally took the matter under advisement and will render his decision after he has considered all the facts and looked up the authorities cited.

WILL DRILL FOR BOTH GAS AND OIL

RICHMOND, June 9.—The Richmond Natural Gas and Oil Company has been formed in this city, and work will begin at once to sink a well to supply Richmond with natural gas for illumination. This decision is the result of tests of the ground made by C. Cofer, an expert in the matter of searching for such substances, who claims that at the depth of 1200 feet natural gas can be found at the intersection of Tunnel and Richmond avenues. John Nicholl is the owner of the land in question and has such confidence in the soundings of Cofer that the company to exploit the field has been formed.

"The company was organized last Wednesday, capitalized at \$500,000, in 51 shares. The incorporators of the company are James Cruikshank, E. M. Tilden, W. S. McRacken, J. R. Nyström and John H. Nicholl, each of whom have taken 100 shares. Incorporation papers were sent yesterday to the county clerk for filing and will be sent to the secretary of state at Sacramento for an issuance of charter. The temporary officers of the company are located at Room 212, city hall building."

Nicholl, when seen at the company's office, stated that it was the intention of the company to begin work at once and that it will be continued without interruption until the drillers encounter what they are after—a supply of natural gas sufficient to supply Richmond and the other cities and towns about the bay.

The company will also drill a well for petroleum as soon as the gas well is completed.

was familiarly known, to pay their last respects, at 10 this morning. The services were conducted by the Very Rev. Reginald Hodgkin, dean of the convocation of San Francisco, and Rev. Father Charles N. Lathrop, rector of the Church of the Advent, who were with the deceased at the time of the accident, and the Rev. E. H. Benson, rector of the Church of St. John the Evangelist, a close friend of the dead priest.

Preceding the morning service the celebration of the holy communion was held at 8, attended by relatives, members of the clergy and sorrowing friends and at 10 o'clock the remains were taken from the place where they have rested in the chapel for the past two days to the front of the church.

Preceded by the choir and with the funeral march resounding from the organ, the clergy in their vestments and mourning stoles marched up the aisle and took their places in the chancel. The three churchmen who had been designated to

hold the services then began the recital of the solemn ritual, while many a tear was shed not only in the mourners' pews in front but in every part of the edifice. There was many a sob, many a heart-broken gasp from those who realized that the beloved priest had passed into the great beyond.

The widow of the dead clergyman was supported by her brothers and her brother-in-law, and was scarcely able to stand the strain of the day. The pall-bearers consisted of the vestry of the church, composed of the following: Francis H. Gardner, senior warden; Alexander Goldsack, junior warden; Franklin G. Spencer, Arthur Lundblad, John Hedley, C. M. Hunt, James H. Smith, John F. Graham, Robert Briggs and A. Bourne.

The services over the officiating clergy, relatives and closest friends proceeded by automobile funeral procession to Cypress Lawn cemetery in San Mateo county, where the last words were said shortly after noon.

LATEST NEWS FROM OUTSIDE TOWNS

JULY 4 TO BE CENTERVILLE DAY

City Plans to Celebrate and Japanese Will Help in the Fete.

CENTERVILLE, June 9.—Extensive preparations are being made by a special committee appointed from a group of representative citizens of Centerville for a Fourth of July celebration. Even the members of the local Japanese colony have come to the front with a promise to make a showing in the celebration, \$500 having been subscribed by the Japanese fruit growers and the shippers to pay the expenses of a float and for the decorations.

A parade, in which fraternities, school children and representatives of the town's industries will participate will be given in the morning and in the afternoon folk dances, literary exercises, athletic contests and vaudeville will attract the attention of the visitors. The Mount Tamalpais Athletic Club will take charge of the vaudeville and athletic contests. Special rates have been granted by the Southern Pacific.

SAN LEANDRO TO IMPROVE ROADS

Movement is Started to Better Condition of Thoroughfares.

SAN LEANDRO, June 9.—Members of the San Leandro Chamber of Commerce have taken the initiative in the move for better roads in the vicinity of the lower section of the bay shore, and in securing a portion of the \$15,000 state bond issue for new roads. At a recent meeting a committee drew up a set of resolutions which are to be sent to the Chambers of Commerce of various other cities, including Hayward, Niles, Centerville, San Lorenzo and Newark requesting them to appear at a meeting to be held in the San Leandro city hall, next Wednesday evening.

According to the promoters better roads will do a great deal toward building up the bay section which, heretofore, has not been touched by wagon road. Before going ahead with the movement the members of the San Leandro Chamber wish to obtain the consensus of opinion of the members of the other chambers throughout the section of the city to be affected.

The officers of the San Leandro organization who are working for the success of the conference by obtaining a large representation of the commercial bodies, include the following:

President, J. J. Gill; first vice-president, Dr. P. C. Stokes; second vice-president, L. B. Fry; secretary, W. F. Cunningham; treasurer, Allen G. Clarke; directors, W. S. Peters, C. Q. Rideout, K. H. Collins, L. H. Begler, L. J. Wheelan.

HAYWARD SCHOOL GRADUATES MANY

More Than Score of Grammar Grade Pupils Are Awarded Diplomas.

HAYWARD, June 9.—Twenty-four graduates of the Hayward grammar school received their sheepskins yesterday afternoon at the close of an elaborate program heard by one of the largest audiences that has ever crowded into the natural amphitheater. The entire program went off without a hitch. County Superintendent of Schools George Frick delivered an address to the pupils and audience in which he praised, in the most glowing terms, the work done by the graduates and their fellow pupils.

Before the exercises the visitors were shown through the exhibit rooms on the lower floor of the building, where were displayed the handiwork of the pupils, miniature farms with small green lawns and plants, carpentering and articles of sewing made by the girls.

The members of the graduating class were:

Ethel Allen	Edward Mattos
Lena Amari	John Martin
Merrill Alberts	John Mitchell
Joseph Abrams	Blanche Morris
Howard Baker	Estelle Neilson
Frank Cunha	Edith Owen
Florence Durkee	Arthur Provse
Warner Dassel	Gussie Revano
Joseph Egan	Easton Russell
Austin King	Gertrude Thorford
Charles King	Norma Woods
Carl Lehmann	Russell Wright

WOMAN IN NEED

OF \$12 A WEEK

Mrs. Raymond Robins Declares Working Girl Must Get That As Minimum.

BOSTON, June 9.—"No working woman can possibly live on less than \$12 a week," declared Mrs. Raymond Robins of Chicago today. Mrs. Robins is in Boston to attend the National Conference of Women's Trade Union Leagues, of which she is president.

REALTY GROWTH OF HAYWARD VERY REMARKABLE

The Promise of Motor Car Service in Month Sends Up Values.

BUILDING GOING ON ALL OVER THE TOWN

Prices of Farm Lands Increase With Prospects of New Traffic.

HAYWARD, June 9.—Since the announcement in THE TRIBUNE that the Hayward Chamber of Commerce has received a communication from railroad officials in which it was stated that within the next month the new motor car service would be established from Hayward to the mole, there has been a marked flurry in the real estate market both in business property and in ranch tracts. The new service will mean much for all the towns along the line and particularly Hayward, which, at the present time, is connected with Oakland only by the cars of the Oakland Traction Company, which means a forty-minute ride.

Several large transactions in city property are reported to be under way on the strength of the news of the proposed car service. Farms and smaller ranches in the Castro valley and Cull canyon have been raised in price and are bound to go higher.

TO IMPROVE TRACT.

A. Montgomery, owner of a large tract of land known as Cherryland and formerly the property of the Meek estate, has made preparations for extensive improvements in his lots. Several new streets are to be cut through in the near future, while modern sewers are to be placed on each lot.

The hills behind the town are becoming dotted with houses, both of the rancher and the homemaker, while in the heart of the town new business blocks are under way.

Last year \$107,655 was expended on buildings alone. A large portion of the \$150,000 worth of parking and street work has been finished in the residence district. All told, the growth of Hayward for the past six months has been a remarkable one. In its vicinity has grown up a poultry industry which threatens to rival Petaluma.

Within the next few months I. B. Parsons, owner of the franchise for a street railway through the business section of the town and connecting the Western and Southern Pacific railroads with the upper section of the city, will commence work on a new line.

PLAN AUDITORIUM.

Russell City, a suburb of Hayward, is planning the erection of a large and modern auditorium for entertainments and meetings of the civic clubs.

An extensive advertising campaign, to cost \$1000 and to include the issuing of monthly pamphlets and a permanent exhibit of all the products grown and manufactured in the district, is planned and will soon be put into operation by the Hayward Real Estate Exchange. The Chamber of Commerce will also assist in this publicity work.

ABRAM GONZALES IGNORES THREATS

Leaves for Chihuahua Despite Danger Existing at Capital.

JUAREZ, Mex., June 9.—Apparently indifferent to threats which he said were made against him, Abram Gonzales left for Chihuahua today to take office as provisional governor at the same time that word came from Chihuahua that Miguel Ahumada, former federal governor, had left there. With the exception of the presence of 5000 federal troops in the city, the government affairs are now entirely in the hands of the insurrecto officials. The fact that the insurrecto army which fought with Madero is being kept outside the city pending the evacuation by the federals, is causing apprehension.

The insurrectos are loudly protesting their impatience. Three days ago General Orozco sent in three insurrecto officers. The couriers were detained. Since then Orozco has declared he would march into the city if the federals did not soon leave. The residents have been kept in nervous tension because of the friction between the two forces.

Heads of American families who are staying in El Paso have wired their relatives not to go to Chihuahua until the situation clears.

OAKLAND TRIBUNE, Oakland's greatest evening newspaper, assures its advertisers that the circulation of this paper reaches every day over 200,000 readers.

I. D. E. S. PLANS BIG CELEBRATION

The Affair at Pleasanton Will Attract Many to the City.

PLEASANTON, June 9.—Commencing tomorrow night, and continuing until a late hour Monday evening, the local I. D. E. S. order will present their celebration of the "Feast of the Holy Ghost" before the people of Pleasanton. Two grand balls, one for the American members and the other for the Portuguese members, will be given in the Dania and the I. D. E. S. halls tomorrow evening to open up the festivities. Mrs. Rose Mello, who has been chosen queen for this year, will ride at the head of a parade to be given through the streets Sunday afternoon and evening. A barbecue will be served afterward.

SENATORS FIND JOKE IN BOURBON WOODPILE

WASHINGTON, June 9.—Republican senators chuckled today over what they called a good joke on the Democratic members of the house. The house free list bill places on the free list timber, boards, etc., "except" boards, planks, dials and other lumber of lignum vitae, lancewood, boxwood, grenadine mahogany, rosewood, satinwood and all other woods.

YOU CAN BID ON IT YET

Homes and Business Property Will Be Opened to Bid by Investors.

The Evers property, on San Pablo avenue, near Eighteenth, and two valuable dwellings adjoining this investment and business property was sold at auction, subject to approval of Superior Court. This comes up on next Monday, June 12th, at 10 a. m. in Probate Department. This will give buyers a last and only chance to bid on this fine property having 50 feet frontage.

ATTEMPT TO SHUFFLE OFF BY GAS ROUTE FRUSTRATED

SAN FRANCISCO, June 9.—Determined to end his existence, Joseph Boudet, a longshoreman, hired a room at the Ferry hotel, 48 East street, last night, tightly closed the windows and barricaded the door. This morning the odor of illuminating gas was detected and after great difficulty M. Shutzler, a lodger, succeeded in smashing in the door. The man was rushed to the Harbor hospital in an unconscious condition and has a chance of recovery.

MAYOR M'GARTHY MADE DEFENDANT

Autoist Says in Suit That His License Was Revoked Without Cause.

SAN FRANCISCO, June 9.—Alleging that because he has refused to compel his chauffeur to join the union his permit for an automobile stand has been taken from him, Fay C. Beal, a well known local capitalist and clubman, began suit today for an injunction against Mayor P. H. McCarthy, Elmore C. Leffingwell, John F. Seymour and Sergeant Owen Gorman, back inspector.

He asserts that he has been refused a permit for his stand at Powell and Market streets because he did not obey the mandate given to him that the drivers of his cars must join an organization of chauffeurs.

Lately returned from a trip through the Holy Lands, Colonel Sharp has secured her services in the interest of her work on this coast. Her welcome meeting will be on Saturday evening at 8 p. m. On Sunday morning at 11 o'clock her subject will be "Optical Illusions." Her other addresses will be at 3 p. m. and 8 p. m. respectively.

LAUNDRYMEN HEAR THEIR PRESIDENT IN ADDRESS

Head of National Organization Speaks of Growth of Business.

The second day's session of the eleventh semi-annual convention of the Southern California Laundrymen's Association opened this morning at 10 o'clock at Pythian hall, Twelfth and Alice streets. The two hours were devoted to an address by L. H. Fisher of Kansas City, Mo., president of the National Laundrymen's Association, in which he spoke of the growth of the steam laundry business, steps taken to promote the industry, efforts made to increase the public knowledge of the sanitary benefits of such work and other subjects of interest to the delegates.

At yesterday afternoon's session the time was devoted to the business of the Southern California association, the chief feature of which was the election of officers for the coming year. They were: President, N. Bonifilio of Los Angeles; first vice-president, Edward Doyle, Riverside; second vice-president, J. P. Cluett, Long Beach; secretary, G. S. Schimmin, Los Angeles; treasurer, John Morris.

Last night the delegates were entertained at the hall by a stereopticon lecture given by George M. Munger, Sr., of Los Angeles, upon the Panama canal.

At 2 o'clock this afternoon the convention re-convened. The session was devoted to business, the chief feature of which is the consideration of the formation of a state laundrymen's association. At present there are several independent organizations in the state.

Scores Down When Russian Vessel Burns

BLAGOVIESHTCHENSK, Asiatic Russia, June 9.—The Amur river steamer Muraviev Amursk was destroyed by fire last night. The passengers jumped into the river and scores of persons were drowned.

PROGRAM FOR THE LAUNDRY CONVENTION

The program for tomorrow's session of the Laundrymen's Association convention is as follows:

At 10 a. m. the visitors will leave Hotel St. Marks for San Leandro on an auto trip to embrace the cities of Oakland, Alameda and Berkeley, returning to Idera Park at 1 p. m. for luncheon.

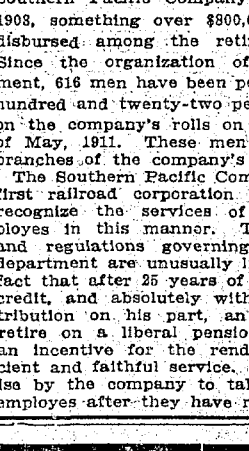

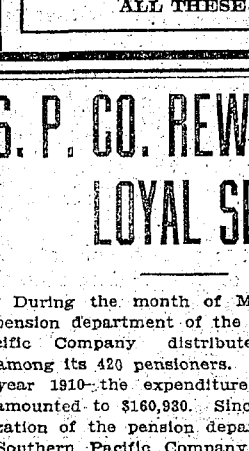

At 2:30, special cars have been provided to take the laundrymen to a banquet at Piedmont Springs Cafe.

ASKS POLICE TO FIND MISSING OAKLAND MAN

Mrs. J. Haney, of 150 Eighth street, has asked the police of Oakland and Los Angeles to assist her in locating John P. Haney, a carriage painter, who has been missing since October 12 of last year. Haney left Oakland last fall, and was employed for some time in Los Angeles, receiving his mail through the general delivery in that city. Suddenly he ceased to call for his mail, and nothing has been heard from him since that time. He was 23 years of age.

WIEL-RAMSAY CO. Have Quit The Shirt Waist Business Entire Stock Shipped To Us

Well, Ramsay & Co. are pioneers in the shirt waist business, making the celebrated "Griffin" brand of Women's Waists and Men's Shirts.

They operated along one line; bought the best materials; put the best work into them; made them up under sanitary conditions, with fair wages to all the operators.

Naturally, waists made under such conditions were way above the average. But of recent years a change has come over the shirt waist industry; small firms have sprung up, the heads of which do their own designing, cutting and selling.

These smaller concerns, using job materials and job embroideries, with underpaid operators and a cheaper class of workmanship, have brought about a condition which makes the shirt waist business unprofitable to a house organized as Well, Ramsay & Co. Rather than to cheapen their product to meet the changed conditions, with the possibility of lowering their reputation in the Men's Shirt world, Well, Ramsay & Co. decided to discontinue entirely the making of Women's Waists.

Their materials on hand and in process of manufacture, made up, when finished, about 6000 Waists, all of which have come to us at a price. These form the basis of the biggest shirt waist sale we have conducted.

All these go on sale tomorrow in four big lots; and in addition to these 6000 Waists, many others, bought especially for this occasion or taken from our present stock, have been added.

Altogether, it makes a wonderful collection of Waist values, covering the entire shirtwaist field. EVERY PRICE QUOTED IS WAY BELOW VALUE, and every offering is backed by intrinsic merit. See Eleventh Street Windows for styles and prices. Garments on sale in Waist Room on Mezzanine Floor. Sale begins tomorrow morning at 8 o'clock. There will be good choosing any time during the sale, but best, of course, tomorrow and early in the morning.

S. P. CO. REWARDS LOYAL SERVICE

During the month of May, 1911, the pension department of the Southern Pacific Company distributed \$14,096.83 among its 420 pensioners. For the fiscal year 1910—the expenditure for pensions amounted to \$160,920. Since the organization of the pension department of the Southern Pacific Company in January, 1908, something over \$800,000 has been disbursed among the retired employees. Since the organization of the department, 618 men have been pensioned. Four hundred and twenty-two pensioners were on the company's rolls on the first day of May, 1911. These men are from all branches of the company's service. The Southern Pacific Company was the first railroad corporation to voluntarily recognize the services of its old employees in this manner. The provisions and regulations governing the pension department are unusually liberal and the fact that after 25 years of service to his credit, and absolutely without any contribution on his part, an employee can retire on a liberal pension is certainly an incentive to the rendering of efficient and faithful service. It is a promise by the company to take care of its employees after they have reached a certain age or have been compelled to retire by reason of injuries received during the performance of duties.

There are very few vocations that are more exciting than railroad work. It has such a charm, however, that a large majority of those who enter the service spend an entire lifetime in it. The larger percentage of those enjoying pensions from the Southern Pacific Company have been retired for disability and not for age.

Trying to Ignore Oakland.

Some of our good friends across the bay take a world of pains to ignore Oakland. Apparently they believe we can be put off the map by omitting to mention us; that this thriving, bustling, growing city can be kept down and made of no importance by the simple expedient of verbal omission. Oakland will cease to exist, in their opinion, if it is not mentioned. Hence the word Oakland is suppressed whenever it can be done and the existence of Oakland ignored as far as possible.

An example in point is furnished by the program bulletin for the National Educational Convention which is soon to be held in San Francisco. This document contains no mention of Oakland. No reference is made to this city.

Presumably the bulletin was prepared in San Francisco. In that case one can understand the studied effort to ignore Oakland. There are flattering sketches of Los Angeles and San Diego and Portland, Tacoma and Seattle, but nothing about Oakland. Berkeley was barely mentioned because it is the seat of the State University. That much had to be said, but there was not a word about Berkeley in any other respect. The program merely says the State University is there and says Berkeley lies across the bay from San Francisco. All the rest is about the university and its summer school.

Yet Oakland is a great educational center. It has a public school system that is not excelled anywhere, and many private institutions of learning are located here. Mills College, for women, the only institution of its class on the Pacific Coast, is in Oakland. St. Mary's College, a Catholic school of high rank, is in this city. There is the Oakland College of Medicine and Surgery and several seminaries, musical conservatories, etc. But Oakland is not on the map so far as the official program of the National Educational Association convention in San Francisco is concerned.

This constant omission of all reference to Oakland in printed matter of this kind emanating from San Francisco should receive the attention of the Chamber of Commerce. They are not merely accidental. They are studied and spiteful. They indicate a spirit hostile to this city, evidence of a desire to decry it and put obstacles in the path of its progress. Of course such methods cannot really injure this city or arrest its growth, but they are nevertheless annoying and irritating. They promote ill-will between the inhabitants of Oakland and San Francisco and provoke an animosity which hinders development on both sides of the bay along lines that are harmonious and mutually beneficial.

Whenever assemblages like the convention of the National Educational Association are announced our Chamber of Commerce should see to it that Oakland is not ignored in the literature circulated in regard to it. We should help San Francisco in such matters and insist on being treated fairly. Eternal vigilance is the price of liberty—it is also the price of publicity. The Chamber of Commerce should make a note of this.

Giving up all hope of securing a conviction, owing to the death of two important witnesses for the prosecution the District Attorney of Pittsburgh, Pennsylvania, last week moved the dismissal of sixty-two graft indictments found against members of the Common Council. Another reason assigned by him for making the motion was that the sentiment in the community had veered around as to the graft prosecution. Three judges occupied the bench at the time, and the motion to dismiss the indictments was unanimously granted. The Pittsburgh graft scandal promised at one time to assume greater proportions than that of San Francisco. The former president of the Common Council accused of grafting is the only one of the many persons indicted who has been convicted and he is now serving a term in the Western Penitentiary.

The clerk of the Weather Bureau seems to have got his calendar wrong, somehow. The nipping and eager air abroad these mornings indicates that he has got January indexed for June.

Colonel Roosevelt denies that he is committed to Taft or anybody else for President in 1912, and he is equally emphatic in saying he will not be a candidate himself. It is dollars to apples that he will line up for Taft in the end. He is waiting for the psychological moment to make a dramatic announcement in favor of the President.

San Leandro's Unique Festival.

San Leandro is today celebrating its annual cherry festival, which will be continued tomorrow. In fact, tomorrow will be the chief day of this unique festival which has now found a permanent place in the State's festive calendar.

In a special sense, the cherry festival brings money and fame to San Leandro. In a more general sense, it is a great advertising medium for Alameda county. It helps very materially to keep the attention of people residing in other sections of the country centered on the richest and most productive agricultural county in the State, whose fame has spread abroad largely through the exploitation of the fact that it is the largest cherry-producing section in the Far West and that it has occupied that enviable position for the past forty years.

In the earlier history of the county San Leandro stood in the very center of the cherry-producing belt. The growth of population and the expansion of urban improvements in Oakland have within the past decade materially altered San Leandro's relations to the cherry orchard territory. Nearly all of the cherry orchards which occupied a vast acreage to the westward of that city, when it was the county seat, have disappeared, giving way to the imperative demand of urban dwellers for home sites. Indeed, San Leandro's self-expansion is encroaching rapidly on the very horticultural industry which has made it famous in the past and in which the annual festival shows its people still retain a just pride. Urban expansion thus threatens ultimately to either extinguish cherry growing entirely as a special horticultural industry or drive it eastward into new territory now devoted to other uses.

The earlier the administration takes action toward the erection of the auditorium, for which the city recently bonded itself in the sum of \$500,000, the more it will be to the general advantage of Oakland's interests. This city is destined to become the convention city of the Far West, and the sooner that destiny is assured through the erection of the municipal auditorium the better. No time should be unnecessarily lost in carrying out the project. Conventions of all kinds—industrial, commercial, fraternal and political—are all manifesting a desire to come to Oakland. The speedy erection of the \$500,000 municipal auditorium means additional fame and revenue to Oakland. The administration should not delay a minute in putting the consummation of the project in motion. One of Oakland's great opportunities is centered in it.

BUSTED AGAIN

Revival of Volcanic Activity.

The Mexican earthquake of Wednesday last proves to have been far more widespread and disastrous than at first reported when it was supposed that the city of Mexico was the seat of the seismic trouble and the chief sufferer. Later advices show that the volcano Colima, located in the southern part of the State of Jalisco, is the source of disturbance. So violent has been the present eruption of this troublesome volcano that seventy towns are reported destroyed and forty-one others more or less seriously damaged. The cities of Colima and Toluca are not only in ruins, but they are also being devastated by fire. A second and more violent shock was experienced in the city of Mexico yesterday afternoon which severed communication with Acapulco and that city is reported to be destroyed.

The mortality has been very great. Over fifteen hundred victims have already been reported. The wrecking of the military barracks at the city of Mexico resulted in the death of 130 persons, mostly soldiers garrisoned in the building. The wrecking of other buildings has brought the mortality list in the capital to approximately two hundred.

In the town of Apotlan over 400 dead have been taken from the ruins and over 700 hundred persons are reported injured.

The area most seriously affected by the seismic disturbance embraces a 560-mile section of the republic, extending from the Gulf of Mexico to the Pacific ocean and includes nearly a dozen of the central States.

The Colima volcano continues in violent eruption and since Wednesday the famous volcano of Popocatepetl has become active and is belching forth smoke and molten lava which is reported to be flowing in streams down its flanks.

The enormous convulsion created by the eruption of Colima on Wednesday was demonstrated by the fact that the seismographs in every observatory on the continent recorded the catastrophe.

The volcano Colima has been in violent eruption periodically for the past four centuries and during the last forty-two years it has been in an almost constant state of activity.

Until this week's eruption of Mount Colima no serious earthquake has occurred since the seismic disturbance which ruined the cities of Messina and Reggio and laid waste a large section of the island of Sicily and the fertile province of Calabria, the southern extremity of the Italian peninsula. But the indications are strong that a new period of destructive volcanic activity is setting in, for following close after the volcanic outbreak in Central Mexico, the seismographs of European observatories reported a catastrophic earthquake in the basin of the Caspian sea. The exact location and details of this earthquake have not, however, been reported. Apparently, the whole volcanic belt surrounding the earth is in a state of unrest.

The big wholesale grocery firms are awakening to the fact that Oakland is a particularly favorable and profitable distributing point for their interior trade. The William Cluff Company has shown keen shrewdness and enterprise by negotiating a ten-year lease for the big concrete warehouse to be erected by District Attorney W. H. Donahue on the west side of Webster street to cover the whole frontage from Third to Fourth street, and the firm will occupy it exclusively.

ACTORS BECOME UNINTERESTING

And be it remembered that it is the theatrical profession, as a whole, opposite that attracts—not the similar. We, as a people, are intensely respectable, and it is just because we are so intensely respectable that the mere suggestion of raffishness and contact with raffishness has for us an irresistible attraction. Why do so many of us spend our hard-earned savings on week-end trips to Paris? Merely because there is about the very name of Paris a suggestion of that impropriety so dear to the soul of the well-conducted Briton—because, even if he has seen nothing more exhilarating than the Morgue and the tomb of Napoleon, he feels that he has somehow had a gay and waggish time. And, exactly in the same way, when the actor and actress were understood to be people you really could not ask to dinner, they exercised an irresistible fascination over those who would have been horrified at the idea of exchanging afternoon calls with them—and took seats in the pit instead. I do not suppose for an instant that the theatrical profession, as a whole, was ever less respectable in its manner of living than other and corresponding classes of the community; but until quite recent years it was clever enough to pretend that it was. And as long as it kept up the pretense, the actor, just because he was an actor, was an attraction, a power in the land. Tales of drink and divorce courts were whispered about him, and those who heard and those who told the tales alike decided they must have a look at him. Then, in a mad moment, came the craving for respectability; the insistence on the fact that the actor in his private life, the actress in her private life, were even as other men and women are—blameless and orderly. And as a result of that craving and insistence the public has apologized, has admitted that the actor may be a thoroughly respectable person. And, having made that admission and apology, has ceased to find him interesting. Cicely Hamilton in London Telegraph.

GILBERT AND HIS WORK

The death of W. S. Gilbert, albeit he died full of years and covered with honors worthily won, has called forth universal expressions of regret. For the man who is best known through his authorship of "H. M. S. Pinafore," "Patience," "The Mikado" and the rest of those delightful comic operas that gladdened the youth of so many of us seemed, because of his work, because of the human quality of it, to stand to many who never knew him personally, in something of the light of an intimate friend.

Discussion is already on as to whether or not this master-librettist had in him the making of a great dramatist had fate cast his lines in other directions. It seems probable that he might have, had it not been for that ideal partnership he formed early with the late Sir Arthur Sullivan; a partnership that meant so much of happiness to the world. Of his genius there can be no doubt, and if, at times, as in the "Bab Ballads," he seemed to give himself over to rollicking and nonsense, he was at the same time capable of genuine and feeling poetry and behind much of his work, designed primarily to amuse, there was a very definite and always worthy purpose. He was like Charles Dickens in his hatred for sham; like him, too, he was a master caricaturist and he used his genius fervently against hypocrites and pretense.

But we think that the largest value he gave to his age was his unrelenting opposition to having the theater, the field in which he worked, pandering to demoralized tastes. It was a task he set himself and to which he rigidly adhered throughout his life to prove that the theater-going public could be pleased and amused without resorting to vulgarity. The standard he and Sir Arthur Sullivan set for themselves Mr. Gilbert himself recorded in his reminiscences. He wrote: "We resolved that our plots, however ridiculous, should be coherent; that our dialogue should be void of offense, that, on artistic principles, no man should play a woman's part and no woman a man's. Finally, we agreed, that no lady of the company should be required to wear a dress that she could not wear with absolute propriety at a private fancy ball."—Buffalo News.

THERE'S NO RISK

This Medicine Does Not Benefit You Pay Nothing

A physician who made a specialty of stomach troubles, particularly dyspepsia, after years of study perfected the formula from which Rexall Dyspepsia Tablets are made.

Our experience with Rexall Dyspepsia Tablets leads us to believe them to be the greatest remedy known for the relief of acute indigestion and chronic dyspepsia. Their ingredients are soothing and healing to the inflamed membranes of the stomach. They are rich in pepsin, one of the greatest digestive aids known to medicine. The relief they afford is almost immediate. Their use with persistence and regularity for a short time brings about a cessation of the pains caused by stomach disorders.

Rexall Dyspepsia Tablets will insure healthy appetite and digestion and promote nutrition. As evidence of our sincere faith in Rexall Dyspepsia Tablets, we ask you to try them at our risk. If they do not give you entire satisfaction, we will return you the money you paid us for them without question or formality. They come in three sizes, prices 25 cents, 50 cents and \$1.00. Remember you can obtain them only from The Owl Drug Co., Inc., Tenth and Washington, Thirteenth and Broadway, Sixteenth and San Pablo.

BANK SUSPENSION NOT A DISASTER

Patrons of the Defunct London Institution Are More Than Reassured.

LONDON, June 9.—The stock exchange was practically unaffected today by the suspension of the Birkbeck Bank in High Holborn yesterday with total liabilities of \$43,380,010. Consols opened at 1/4 lower than yesterday, but quickly recovered to yesterday's close. Small knots of anxious depositors had gathered about the bank since daybreak, but the crowd when at its largest was probably less than 1000 persons. Pathetic scenes were witnessed in the neighborhood of the suspended institution all day. Many of the depositors were elderly men and women whose whole life's savings were behind the closed doors.

An authoritative statement given out by the directors that the bulk of the depositors are amply secured had a reassuring effect and it is the general opinion in the city that the suspension will not be such a disaster as it first feared.

CARD LEADS POLICE TO STOLEN PROPERTY

SAN FRANCISCO, June 9.—William Green and Aloysius Fadden were arrested by Police Officer Cox on Third street and early this morning for vagrancy and carrying concealed weapons, and had taken care to destroy papers in their possession they might have escaped with these minor accusations. However, when searched by Cox, who had noticed them acting suspiciously, a card giving the location of their room was discovered. On going there the officer found some property belonging to Charles Renard of the California State House, 173 Third street, which had been stolen from him during the night, and included a watch, razor and some other articles. Later in the morning both men were therefore booked for burglary.

Then begin taking regularly three grain hypo-nutrient tablets, which are made from a health-giving ordinary yeast and combined with hypophosphites and an absorbent phosphate. Physicians and chemists assert that this tablet is very largely used for increasing the weight and improving the nervous system because of its aid to digestion, assimilation and absorption. The food elements which go to make blood and solid tissue is retained when this treatment is regularly used for several months. Most physicians and druggists supply them in sealed packages.

RACE HANDICAPS HAVE BEEN FIXED

Cover Track and Field Events at Shellmound Park Next Wednesday.

The handicaps for the track and field events to be held at Shellmound Park next Wednesday by the Retail Butchers' Association of San Francisco were announced yesterday by the Pacific Athletic Association handicappers, John E. Hottel and J. H. Hottel.

Eight events are on the program, all of which are handicap races, except the 100-yard dash. This event is a sprint race. The track and field is a scratch race. All the principal clubs around the bay are well represented, and many of the best athletes of the city have also entered the events. Large entries were received for the shorter events, which necessitates running these races in several heats.

The abbreviations used are as follows: P. A. C., Pacific Athletic Club; V. V. A. C., Valley Athletic Club; O. C., Olympic Club; A. C., Sacramento Athletic Club; B. C., Bagley Athletic Club; St. I. C., St. Ignace Club; U. C., Union Club; S. M. C., St. Mary's College; L. C., League of the Cross Cadets.

Following are the entries:

REFORM WORK IS DISCUSSED

Standard Pay for Women Is Urged by Speaker at Conference.

BOSTON, June 9.—Five section meetings of the thirty-eighth annual conference of charities and corrections were held here this morning. "Sex Hygiene" was discussed by Dr. Richard C. Cabot of Boston, Miss Laura B. Garrett of New York, Dr. William Healy of Chicago and Mrs. Jessie D. Hodder, superintendent of the Massachusetts state reformatory for women.

At the same hour delegates interested in temperance and the care of inebriates held a meeting. The speakers were Professor A. R. Hutton of Cleveland and Dr. Irwin Heuff of the Massachusetts hospital for inebriates.

A section meeting, continuing the subject of housing and recreation, numbered among its speakers Miss Mary E. Richmond of New York and Mrs. Albion Fellows Bacon of Evansville, Ind.

Two section meetings considered the standards of living and labor. The labor meeting heard arguments for a standard of pay and working hours for women and girls by Mrs. Raymond Robins, president of the Woman's Trade Union league, and Miss Josephine Goldmark, secretary of the Consumers' league. The subject of a professional training school for social workers was considered by Professor R. C. McKee of New York, Professor C. W. Doherty of Boston and Professor G. E. Haynes of Fisk university.

Policeman Perishes Beneath Locomotive

LOS ANGELES, June 9.—Policeman C. S. Bowman was struck by a Santa Fe switch engine last night and his body was literally cut to pieces. He was hurrying to the patrol box to "ring in," and in crossing the tracks did not see the approaching engine. He was 23 years old and leaves a widow and stepson. Prior to coming to California, Bowman and his father, F. M. Bowman, were in the hotel business at Augusta, Maine.

TO VOYAGE ON UPPER SAN JOAQUIN

Trip Will Demonstrate River
Is Navigable 300 Miles
Above Stockton.

Object of Journey Is to Induce
Government to Dredge
Channel.

STOCKTON, June 9.—Towing the barge East Side, with about 300 tons of freight for Fresno and intermediate points, the California Navigation & Improvement Co.'s steamer J. W. McDonald, under command of Captain Charles P. McMurtry, left here at 9:30 o'clock a. m. for Skaggs Bridge, on the upper San Joaquin river, about 200 miles from Stockton. The object of the trip is to demonstrate the possibility of navigating the river and to induce the government to make an appropriation to clean out the channel, which has become so obstructed with snags and sandbars that it is navigable only during high water. Until eight or ten years ago steamers made regular trips, except during low water, from Stockton to Firebaugh, about 275 miles.

The J. W. McDonald is 117 feet long and draws about 24 feet of water. The barge is 135 feet long and, with her present load, draws about three feet. The steamer will reach Hills Ferry, 120 miles from Stockton, tomorrow, and will wait there for Colonel James Biddle of the United States corps of engineers and a party from Fresno.

There will be a meeting at Newman, near Hills Ferry, Sunday, of persons from various parts of the valley to discuss the river problem, after which the trip up the river will be resumed. Colonel Biddle is expected to make the trip from Hills Ferry to Skaggs Bridge on the boat and study the condition of the river.

OAKLAND YOUTHS AMONG MISSING

Carl Selwig and Earl Freeman
Seek Adventure On
Highway.

The police have been asked to search for two boys who ran away from their homes yesterday, taking with them clothes and provisions and money belonging to their parents. The boys are Carl Selwig, 14 years old, of 130 Warren street, and Earl Freeman, 17 years old, of 123 Warren street. It is thought they have started for Contra Costa county by way of the county line and Point Richmond.

The two boy adventurers carefully planned to steal away from home and go out upon the road. Young Selwig, a son of George Selwig, took \$14 from his mother's purse before leaving home. He also took some of his own belongings and clothes. Young Gregory, whose departure was reported by G. F. Gregory, of 123 Warren street, took \$20 to assist in paying the way on their journey.

The boys are described as follows: Carl Selwig, 14 years old, weight 100 pounds, height five feet three inches, complexion fair, fair hair and blue eyes. Earl Freeman, 17 years old, weight 115 pounds, height five feet seven inches, complexion dark, brown hair and blue eyes.

BANK OFFICIALS TO MEET HERE ON JULY 13

Examiners of ation, State,
and Clearing House Will
Convene.

ELEVENTH DISTRICT
MEMBERS TO COME

Important Monetary Measures
Will Be Discussed at the
Claremont Club.

Joint meetings of national bank examiners, the various state departments and clearing house examiners will be held during July in each of the eleven districts into which the country is divided. The meeting in this, the eleventh district, which comprises California and Nevada, will be held on July 13 at the Claremont Country club, and it is expected that the superintendents of banks in these states will attend with members of their examining staff, as well as the clearing house examiners of San Francisco and Los Angeles.

This joint meeting of these representatives will be the first one of the sort ever held in the history of the treasury department, it being the intention of Murray, comptroller of the currency, to bring into closer relations all who are engaged in the supervision of either state or national banks.

PROGRAM ARRANGED.
The program arranged for the coming meeting, which has been prepared under the direction of H. N. Morris, chairman of the eleventh district, will be as follows:
Remarks.....Hon. W. R. Williams, Superintendent of Banks of California.
"Dumny Loans, what are they and how can they be discovered and prevented."
By Claude Gatch.
"Systems in practical use in bank I examine; 1st, to secure correct figuring and collection of interest. 2d, to safeguard collection of interest."
By J. A. H. Kerr.
"National Bank Examiner."
"Competition and custom as excuses for improper banking methods. Illustrations."
By B. S. Gatch.
"The Examiner and the Banker."
By H. N. Morris.

This is to be followed by a discussion of topics:
1.—Should directors be prevented by law from borrowing from their own banks? (This is the California law.)
Affirmative, California State examiners. Negative, national bank examiners.
2.—Foreign Exchange and Collection Departments, how can they be checked most satisfactorily?
3.—The practical advantages to be gained by simultaneous examinations of state and national banks, which are under the same management.
4.—To what extent is it the examiner's right to interfere with the internal affairs of a solvent bank?
Papers will be read by California and Nevada state examiners on subjects yet to be selected.

Jealous Husband Kills Wrong Man

West Virginian Shot Dead in
Street and Woman Companion
May Die of Shock.

GENTRY, W. Va., June 9.—One man is dead, another is in jail on a charge of murder and a woman is in a critical condition from the nervous shock of the tragedy as a result of a case of mistaken identity on the part of a jealous husband here last night.

Miss Louisa Berry, out for a walk with her fiancé, John Wilkins, was mistaken by Marlon Adkins for his wife. Without a word of warning, Adkins shot Wilkins, killing him instantly. Miss Berry, it is feared, may succumb to the shock.

COLLEGE GIRLS GLITTER WITH MYRIAD LIGHTS

EIGHT VASSAR GIRLS AT THE BELL

THE EIGHT VASSAR GIRLS WHO ARE SEEN AT THE BELL THIS WEEK.

There is a real pretentious novelty at the Bell this week—one mothers will appreciate witnessing and have their children witness also. Eight bright lassies from the East—Vassar College girls at that—are on the bill in one of the biggest spectacular acts of the season. Hundreds and hundreds of tiny electric incandescent lamps are used, ingeniously worked throughout the dresses and gowns of the young ladies and with a darkened stage as they whirl in the May dance the effect is certainly beautiful. Then they are using a special set of scenery, typical of spring time, with myriads of flowers all aglow with twinkling lights. They sing, dance and render a veritable high-class act—one that the younger folks can particularly enjoy.

MINSTREL SHOW FOLLOWS CIRCUS

100 High School Pupils March in Street Parade Prior to Performances.

RICHMOND, June 8.—The city's streets yesterday were the scenes of a unique spectacle when in the neighborhood of 100 high school pupils gave a circus parade previous to their appearance in a circus performance in the high school auditorium in the evening.

The parade started from the high school building at 4:30 o'clock and marched from there down Macdonald avenue, making detours to take in Washington avenue and other prominent thoroughfares. The parade was organized with all the features of such an affair, being headed by the high school band. Following this came the equestrians, eight boys and girls on horseback, in cowboy fashion; then the trained animals, consisting of an elephant, white bears and other animals, all simulated by various pupils of the school. These were followed in turn by a dozen or more clowns, girls dressed as suffragettes, girls pulling small wagons filled

to represent floats, and other spectacular features.

Following the parade a regular circus performance was given, consisting of acrobatic stunts, humorous sketches and sideshow attractions. After the circus a minstrel show was given. The affair was largely attended and added a good sum to the coffers of the class.

Tonight the final ceremony of the year will be given in the graduation exercises, when twenty pupils of the school will receive their diplomas. These exercises will be held in the opera house at 8:30 o'clock. Those graduating are: Jean Bartholomew, Duncan Campbell, Mary Casey, Gladys M. Chichester, Amy F. Davidson, Kathryn I. Decker, Annabel Dunning, Duncan Dunning, Virginia Griffiths, Philip Harlow, Edward Hoffman, Charles S. Lipp, Elizabeth Peres, Joseph Peters, Lawrence Silva, Edward Temperli, Leonie Trautvetter, Anna M. Weyand, Josephine Logan Whitbeck, Irene M. Woods.

STRIKE ON LEAGUE GRANDSTAND IS OFF

NEW YORK, June 8.—The strike of the men employed in the construction of the National league grandstand at the Polo grounds has been called off and the workmen are all back in their places today. The strike was the result of a protest by metallic workers that the iron workers were doing work which belonged to the metallic men's trade. The contractors discharged the iron workers and gave the work to the metallic workers.

New Hope for Sufferers from Paralysis

that cannot be cured many can be so benefited that the formerly hopeless sufferer will once more find life worth the living.

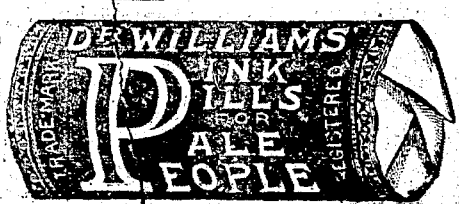

Attention is called to the remarkable cures that have been effected in cases of partial paralysis, and other severe nervous disorders, by the use of Dr. Williams' Pink Pills for Pale People. Some of these cures are so wonderful as to challenge belief, but in every case the statements have been carefully verified and may be investigated by anyone interested.

"Following an attack of diphtheria," says Mrs. H. Gaudreau, of No. 837 West Thirty-sixth Place, Los Angeles, Cal., "I became weak and numb all over. I was perfectly helpless in bed for three months. I couldn't speak above a whisper and could not eat anything but liquid foods. I couldn't use my arms or legs. I was numb all over and had no feeling at all.

"The doctors told my mother that I was suffering from paralysis and that they thought I would never get well. They did not help me and as my mother had often read about Dr. Williams' Pink Pills she decided to have me try them. I hadn't taken many boxes before I could see that the pills were helping me a lot. In six or eight weeks' time I could sit up in bed and could use my arms a little. I used them all I could and as I grew stronger all of the time, I got full use of them. I was longer in learning to walk but finally was able to do this too. I used the pills until completely cured and have had no signs of the trouble returning."

The treatment of nervous disorders with Dr. Williams' Pink Pills is successful because it supplies, through the blood, the elements needed to build up the weakened, wasted nerves. The pills are guaranteed to be free from opiates or any habit-forming drug. Their safety and record of cures merit a trial.

If you are interested send today for our booklet, "Nervous Disorders, A Method of Home Treatment." It is free. Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes, \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

WHIPS ASSAILANT DESPITE WOUND

Women's Companion Shot at for Resisting Insults.

PORTLAND, Ore., June 8.—Resenting insulting remarks alleged to have been made to his women companions, William H. Wanneka, turned upon the offenders, to be made the target of two revolvers. The young man was wounded in the cheek at the first fire, but ignoring this, he knocked out, with bare knuckles, one of his assailants and then thrashed the other, taking both their guns away from them.

POOR SANITATION IN MANY CITIES

Presidents of Life Insurance Companies Discuss Health Conditions.

NEW YORK, June 8.—That at least thirty percent of the population in various cities in the eastern and southern part of this country equipped with good water supply systems mainly use well water that is subject to contamination was stated in a report of a special investigation of the sanitary condition of thirty-two American cities, submitted to the Association of Life Insurance Presidents today by Elmer T. Messenger, actuary, of Hartford, Conn. In cities with sewer systems the population living in houses unconnected with sewers was given at about forty per cent.

The cities are: Lynchburg, Roanoke, Knoxville, Chattanooga, Nashville, Louisville, Cincinnati, Indianapolis, Bloomington, Springfield, St. Louis, Memphis, Little Rock, Vicksburg, New Orleans, Mobile, Montgomery, Birmingham, Atlanta, Macon, Jacksonville, St. Augustine, Savannah, Charleston, Augusta, Columbia, Charlotte, Danville, Baltimore, New York and Hartford.

"In regard to the disposal of garbage, conditions in most cities were unsatisfactory," said Messenger. The most sanitary way of disposing of garbage is probably to burn it. About half a dozen of the cities investigated had incineration plants and as a rule these plants were working in a reasonably satisfactory manner—and if they were not it was generally because the work of collecting the garbage for burning was subject to local influences with unfavorable results. In the great majority of cases the garbage is dumped on vacant lots, frequently within the city limits and sometimes not far from the heart of the city.

"Ordinances for inspection of milk meats and perishable provisions were quite general, and it is clear that they are being enforced with increasing effectiveness every year, but such work of this kind depends mainly upon three things: freedom from political control, a competent and particularly a courageous board of health and a strong public opinion of thorough enforcement of the work."

The report urged the organization of sanitary clubs in every city in the country and it was suggested that the Association of Life Insurance Presidents take the lead in this work through its agents, medical examiners and other representatives in different communities.

NEW JERSEY LIQUOR BILL AMONG MISSING

TRENTON, N. J., June 8.—The James liquor bill is missing and all efforts so far to locate it have been futile. This bill can not be acted upon by Governor Wilson or become effective until it is found, and for that reason the state capital is being literally turned upside down in the search.

The James bill provides that New Jersey dealers may sell liquor in municipalities other than their own without securing another license. The bill was properly delivered to the governor's office, it is said, at the close of the legislature, along with many others, for the signature of the governor. The governor did nothing about it before he went away and now that he has returned, he wants to act upon it.

STATE LAND TITLE ASSOCIATION ELECTS

FRESNO, Cal., June 8.—The California Land Title Association, in session here, has elected the following officers: President, A. J. Carmany, San Francisco; secretary, R. F. Chilcott, Redwood City; first vice-president, E. M. McGarvey, Maraca; second vice-president, N. W. Thompson, Los Angeles; third vice-president, T. C. Edwards, San Jose; Leo C. Gates of Los Angeles, retired president of the California Association and president of the National Association, was re-elected delegate to the national convention, which will meet in Little Rock, Ark., next fall.

PUTS \$1 IN POOL; DRAWS OUT \$10,444

LOS ANGELES, June 8.—When R. V. Morrison of San Francisco called for his mail at the Hotel Alexandria yesterday, he was handed a telegram which had been held pending his arrival. He opened the message carelessly, and was astounded when he read that he is to receive \$10,444 on an investment of \$1. Morrison, who frequently goes to Victoria, was there a few weeks ago on business and, in talking with a number of English friends at his club, the subject of a big pool being made up on the English Derby, came up. Morrison, who is not a betting man and doesn't believe in it, took a ticket merely to please his friends, handing over \$1 and immediately forgetting all about it. Sunstar won, and he takes the pool.

What you can do with changeable needles

Learn the advantages of changeable needles in playing the Victor, and you will find in it new charms and beauties.

The Victor Needle produces the full tone as originally sung or played and is particularly suited for playing records in large rooms, halls, etc., and for dancing.

The Victor Half-tone Needle produces a volume of tone about equivalent to what you would hear if seated in the third or fourth row of the dress circle at the opera house or theatre—a splendid needle for general home use.

The Victor Fibre Needle is particularly suited to the discriminating music lover, and reproduces Victor Records with all their clarity and brilliancy in a slightly modulated tone. With this needle your records will last forever. Victor Fibre Needles may be repointed eight to ten times and used as often as repointed.

For 50 cents and 22 cents for return registered postage, we will alter your Exhibition Sound-box so you can use Victor Fibre or Steel Needles at pleasure.

Or, on payment of 50 cents and 44 cents to cover cost of registered postage both ways, your dealer will forward it for you.

SAN FRANCISCO WEDS BELLE OF ST. LOUIS

ST. LOUIS, June 9.—Miss Marie Garneau, daughter of Mr. and Mrs. James W. Garneau, and Theodore Murphy of San Francisco were married yesterday. The ceremony was performed by Archbishop Gleason.

The bride was given in marriage by her father, who is president of the Mer-

chants' exchange. Mrs. Wilson McNeely of Philadelphia was matron of honor. Miss Frances Garneau and Miss Clemence Garneau, sisters of the bride, Miss Margaret Murphy of San Francisco, sister of the bridegroom, and Miss Louise Nugent were the bridesmaids. The ushers were John Murphy, brother of the bridegroom; Morris MacDougal, Conde Benoit and Wilkin Jones. George Murphy of San Francisco, another brother of the bridegroom, acted as best man. After the reception, Mr. and Mrs. Murphy departed for San Francisco.

FROHMAN CUTS HIS PRICE FOR SEATS IN THEATER

Chicago Managers to Plan a
General Slash in Their
Rates.

WAR IS STARTED ON
MOVING PICTURE SHOWS

"We Need the Gallery Gods,"
Says Head of Many
Playhouses.

CHICAGO, June 9.—In a war on moving picture shows, balcony and gallery prices have been slashed at a downtown theater where a play under the management of Daniel Frohman is being produced. On Monday a concerted plan will be submitted to all of the theatrical managers in Chicago who present high-class plays.

"Very many people go to the moving picture shows simply because they cannot afford to see plays," said Frohman last night. "We need the gallery gods. The last time Sir Henry Irving was here he said, 'I am disappointed in the fact that his beloved gods were missing. They are a most potent factor in the prosperity of the drama, because they are interested, enthusiastic and demonstrative.'"

"If they approve a play they show it. If they disapprove they show it, and they form the best barometer of public opinion. If a play is not good the sooner we know it the better."

"We wish to make this proposition mutual, by bringing the drama within the reach of people who cannot now afford to attend at present prices."

SPAIN AMBITIOUS; FRANCE FEARFUL

King Alfonso's Activities in
Morocco Worry European
Republic.

PARIS, June 9.—The French government is concerned over Spanish activities in Morocco, and especially at a time when France, having attained the relief of Fez, intends to withdraw her troops after reorganizing the sultan's army and having accomplished the pacification of the country, Spain seemingly is determined to extend her zone in Morocco, which is now limited to Melilla, Ceuta and their environs.

M. Geoffroy, the French ambassador at Madrid, is representing to the Spanish government the untimeliness of further military enterprise in the troubled sultanate as endangering the confidence of the powers in the maintenance of Moroccan unity, since some power might declare that Morocco was being dismembered and so the powers were no longer bound by the Algeiras agreement, but each free to act according to its own interests in reference to Morocco. The power naturally in mind which might make such representations is Germany. The German note which was reported as being sent to France, calling attention to the limitations of the Algeiras agreement apparently has not been received here.

CAMPAIGN AGAINST THE WHITE PLAGUE

Alameda County Anti-Tuberculosis Society Proselyting
to That End.

A vigorous campaign is being waged by the Alameda County Anti-Tuberculosis Society in an effort to obtain public co-operation and opinion in the matter of building open-air schools in Oakland, and after two weeks' steady work all the clubs which have been addressed on the subject have promised their support and have passed resolutions expressing their views upon the subject to the board of education.

The campaign is to be continued until all the improvement clubs and civic bodies of the city have pledged their support. The Federated Improvement Clubs of the annexed district will hold a meeting in the near future, when resolutions favoring the school will be proposed. The success of the open-air system in Fruitvale school No. 2 will be pointed out at this meeting.

Next Tuesday evening at a meeting of the Santa Fe Improvement Club addresses will be made on the subject, by Dr. Enago Majors, Miss Annie Brown, recently elected on the board of school directors, and secretary of the Anti-Tuberculosis Society, and Dr. Florence Sylvester. Other meetings of various clubs are being arranged.

OAKLAND'S BOYS AND GIRLS

JULY 4 TO BE OBSERVED
AT OAKLAND PLAYGROUNDS

Children at play in Bushrod Park Playground.

With patriotic exercises the Fourth of July will be observed in all the playgrounds throughout Oakland. Games will be the features of the programs. The directors of the respective pleasure resorts will supervise the activities.

Many hikes and camping trips are being planned for the children of the playgrounds, who will eventually be called "Girl Scouts." In an interview with George E. Dieke, superintendent of the Oakland playgrounds, he stated that the girls have not as yet been organized as the boys are but there is a movement on foot to perfect a similar organization among the girls. In a num-

ber of the eastern states the girls have banded together and are living up to the scout laws.

At the present time many changes are being made in the Boy Scouts of this city where about 600 sturdy lads are affiliated with the movement.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from leaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by Osgood Bros. drug stores.

DATE OF ENTRANCE EXAMINATION IS ANNOUNCED

Entrance examinations of the Oakland high school will be held July 29 at 9 o'clock in one of the rooms of the Oakland high school, Twelfth and Jefferson streets. The pupils who failed to reach the required standard for admission to the high school and who desire to continue their studies in a higher institution of learning will be permitted to take the examinations. Graduate pupils of all the grammar schools who wish to matriculate are requested to meet on that date.

The public schools will open July 31, when a large number of students will enroll in the respective high schools.

RIVER SERVICE IS INAUGURATED

Oakland Commission Firm
Uses Two Vessels On
Run.

Hunt, Hatch & Co. have inaugurated a daily steamer service from points on the Sacramento river to bring produce to this city. The Jessie Matson and Etta B., which was overhauled recently, are on the run alternately. The Suisun City, owned by the same firm, is now on the ways at a San Francisco shipyard and will later also be placed on the river run.

A heavy shipment of carbide from New York, via the American-Hawaiian freight line, arrived at Adams' wharf yesterday. The shipment was destined for the Union Carbide Sales Company and was unloaded with the belt conveyor, operated by the Oakland Dock & Warehouse Company. It is the first time that anything but sacks of flour, grain or cement has been transferred from a vessel to cars.

A number of vessels tied up at Long wharf yesterday as follows: The Neuberg, Captain Norberg, from Columbia river, left 90,000 feet of lumber and a quantity of shingles; the J. B. Stetson, Captain Taylor, from San Pedro, loaded cement; the Arctic, Captain Linder, from Fort Bragg, unloaded 50,000 feet of lumber; the M. E. Turner, Captain Winkler, from Portland, left 50,000 feet of lumber; the Westerner, Captain Kelly, from San Pedro, took on some miscellaneous freight; the J. J. Loggie, Captain Johnson, from Eureka, left 800,000 shingles; the Claremont, Captain Walz, from Columbia river, unloaded 150,000 feet of lumber; the Ravalli, Captain Nelson, loaded eight cars of cement for Eureka.

The Columbia Grafonola

marks an epoch in the evolution of the perfect musical instrument.

By its use of Double-Disc talking-machine records, it is really a Graphophone—but a Graphophone of marvelous richness of tone, and entirely self-contained—without the horn or any other recognizable talking-machine feature. Its construction embodies entirely unique principles of sound-reproduction and of tone-projection.

There are "concealed-horn" talking-machines on the market already. If you will make just one comparison you will own a Grafonola.

You can make this comparison by stepping into our store.

Full Value for Your Old Phonograph

We allow full value for old machines of any make to purchasers of the new Columbia Grafonola. Don't let your old machine stand in the way of your getting the latest and most perfect sound-reproducing instrument. Come in and hear the Grafonola and talk the matter over with us. You do not know what a talking-machine can do until you hear the Grafonola.

15,000 MEN WITH BIBLES TO BE IN PARADE

Remarkable Procession Will Form On Second Day of Convention.

25,000 GOOD BOOKS TO BE DISTRIBUTED

Big Motion Picture Campaign Planned by Sunday School Workers.

SAN FRANCISCO, June 9. — As a manifestation of strength and earnestness, the adult Bible students of North America will parade through the streets of San Francisco on the afternoon of Friday, June 23, the third day of the International Sunday school convention which is to be held in this city June 20 to 27. It is expected that 15,000 men, each carrying a Bible, will be in this parade and will be stacked upon the platform of the Coliseum where the convention is held and when they have served their purpose here they will be distributed among the leading hotels of San Francisco so that a Bible may be in each guest room.

FROM BAY COUNTIES.

In the first division will be the men from the bay counties. The second division will embrace the delegates from California, Oregon and Washington, following which come the men from Canada, Mexico and the island possessions. The last three divisions will contain the delegates from the eastern states. Not only delegates but any man who wishes to testify his belief in and respect for the Bible, will be welcomed to the parade. The parade will be a demonstration of the principles of right living which the Bible teaches and for which it labors all over the world.

BUT ONE ITEM. This is but one item in the program by which the delegates to the International Sunday school convention hope to impress San Francisco. The Bibles carried in the parade, and at the close of the march, will be distributed to the public with which to purchase 25,000 Bibles to be distributed at this convention.

During the week of the convention noted speakers from all over North America will be heard and large mass meetings will be held at the Coliseum and the Greek theater in Berkeley. The parade will be a demonstration of the principles of right living which the Bible teaches and for which it labors all over the world.

CHORAL SOCIETY. There will also be a monster choral society, composed of local and trained musicians from central California, which will give a concert at the Coliseum from the great masterpieces of the world's celebrated composers. It is expected that this chorus will be the nucleus for the formation of a great world's fair choral society which will represent San Francisco musicians in 1915.

CLUFF CO. PLANS GIANT WAREHOUSE. The first move to establish a wholesale grocery district in this city has been taken by the William Cluff Company, one of the large grocery firms doing business on this side of the bay, which has recently acquired a 10-year lease on the Donahue property, having a frontage of 200 feet on Webster street, 100 on Third and 75 on Fourth street. Upon the site will be erected a four-story reinforced concrete warehouse, the plans already having been drawn. As soon as contracts have been signed construction will commence. It is said, and the building will be occupied by the William Cluff Company alone, contrary to an editorial which appeared in this paper last Wednesday, stating that more than one firm would be quartered there.

First Move Taken to Locate Site of Wholesale Grocery District.

Increased business and a demand for more rapid facilities for handling goods has made it imperative that the well-known firm establish a large warehouse in this side of the bay in addition to its San Francisco house and the site chosen being close to both the Southern and Western Pacific roads is a most advantageous one in every respect. At present the Cluff Company is doing business at Tenth and Webster streets and is under the management of William K. Brackett. The location of other firms in the same vicinity has been assured, so that within a short time that part of the city will take on an active appearance as the rapidly growing retail section surrounding the new City Hall site, where improvements now under way and those contemplated all speak for the wonderful progress now being made in Oakland, the city of opportunity.

JEWELER GOES TO PRISON. MUNICH, Bavaria, June 9. — Emil Becker, a jeweler, formerly of San Francisco, who was convicted of having, with an accomplice, swindled a Frankfurt-on-the-Main jeweler, out of \$38,900 worth of jewelry, has been sentenced to five years in the penitentiary.

EXPECTED RUN ON BANK FAILS TO MATERIALIZE

GRASS VALLEY, June 9.—When the Bank of Sierra Valley at Loyalton opened for business yesterday the anticipated run did not occur. Business men who have had no place to deposit funds since

the bank closed, crowded the lobby as soon as the doors were opened and deposited receipts. President A. S. Nichols and Directors George H. Taylor, L. W. Conklin and A. I. Modearn have shouldered the largest portion of Cashier Miller's alleged shortage, which is now estimated at more than \$27,000. The directors said that all drafts from

outside banks which have accumulated during last week will be paid immediately. WORK WILL SOON START after you take Dr. King's New Life Pills, and you quickly enjoy their fine results. Constipation and indigestion vanish and fine appetite returns. They regulate stomach, liver and bowels and impart new strength and energy to the whole system. Try them. Only 25c at Osgood Bros.

SATURN TO SAIL. VALLEJO, June 9.—The collier Saturn has been ordered to San Diego Saturday, carrying coal and other supplies for the cruisers of the Pacific fleet. Orders also were received at Mare Island Navy Yard directing that a detachment of sixty-five marines and sailors be sent to San Diego for distribution among the cruisers of the Pacific fleet.

S.S.S. A GREAT TONIC AND BLOOD PURIFIER

There is one reason above all others which makes S.S.S. the greatest of all tonics, and that is because it is the most perfect of all blood purifiers. Any system which needs a tonic, needs a blood purifier, for it is impure blood which causes the weakened, run-down condition of the body. S.S.S. is made entirely of roots, herbs and barks, which possess not only strengthening properties, but at the same time are recognized as ingredients of the greatest value for removing every impurity, poison or taint from the circulation. S.S.S. improves the appetite and digestion, corrects stomach disturbances and steadily tones and builds the system up to perfect health. It adds to the blood the rich, healthful properties it needs, and in every way benefits the system. S.S.S. cures all diseases and disorders arising from weak or impure blood. Book on the blood and medical advice free. S.S.S. is for sale at drug stores. THE SWIFT SPECIFIC CO., ATLANTA, GA.

MISS CLAIRE BOWMAN of Berkeley has sent out cards for a large bridge party which she will give on the afternoon of Monday, June 19. The affair is given in honor of the hostess' aunt, Miss Isabelle Bowman, of Cleveland, who is visiting here, and Mrs. Clarence Head, a recent bride of this city. Sixty-five invitations have been issued and the afternoon will be a smart one.

Miss Bowman is well known in Berkeley and this city and is a frequent hostess.

Mrs. Head is a Mills College graduate and has been much entertained in the bay cities.

CLUB MET THIS AFTERNOON.

The Casa Guida Circle, presided over by Mrs. Katherine Miller, held a session this afternoon at the Madison apartments and listened to an enjoyable reading by Mrs. O. M. Bennett of Berkeley of a play written by Mrs. Miller, entitled "The Federal Eagle." The club has a membership of about fifty matrons, who meet twice a month for a literary program, which is contributed by its members. Among them are: Mesdames Annie W. Briggman, O. M. Bennett, William Lawrence Jones, Herbert Sanford Howard, Charles Leonard Smith and Katherine Miller.

SHOWER BRIDE-ELECT.

Miss Martha Ledeme of Alameda, entertained last evening at a shower for Miss Jeanette Appel of this city, a bride-to-be.

The guests included Miss Mabel Wright, Miss Ethel Musladin, Miss Lillian Barrows, Miss Mabel Musladin, Miss M. Wyatt, Miss Casella Gallagher, Miss Catherine Dicker, Miss Rose Silver, Mrs. Leon Ledeme, Mrs. Wm. Appel, Mrs. Arnold Leechot, Mrs. Jean Baughon, Mrs. Major Specht, Mrs. P. E. Brown, Mrs. M. Thompson and Mrs. R. Silver.

LESLIE OLIVER WEDS.

The wedding of Leslie Oliver, son of Mr. and Mrs. William Letts Oliver of Vernon Heights, and Miss Louise Runyon took place last evening in Brooklyn, N. Y. Following a honeymoon trip, young Oliver will bring his bride to this city, where they will make their home. The Runyons and Oliver have been friends for many years, and the charming bride will be given a cordial welcome upon her arrival in this city. The couple will reside with Oliver's parents at the spacious family home on Broadway. Oliver is associated with his father's business and is one of the best known young business men in the bay cities. He is a brother of Harold Oliver, whose wedding to Miss Minnie Walker Culver took place about a month ago.

BERKELEY WEDDING.

A Berkeley wedding of interest to many is that of Miss Ethel Henry and Roscoe Knowles Cross, which will take place on June 24 at the residence of the bride's mother, Mrs. S. J. Hendy, in Berkeley. Only members of the immediate families will be asked to witness the ceremony, which will be followed by a reception for which a large number of cards are being sent out. Mrs. A. B. Weber will attend her sister as matron of honor. The Hendy family has lived in the college town of late, having moved from Alameda, where Mrs. Hendy and her daughter formerly made their home. Miss Hendy is a relative of Mrs. M. F. McGurn of Alameda and the Joshua Hendy family of San Francisco.

MARRIED IN THE SOUTH.

Friends in the bay cities have received cards announcing the marriage of Miss Marguerite Bertram Arnold to Donald Kirk Butterfield, June 6, in Los Angeles. The bride is the daughter of Mr. and Mrs. George Leonard Arnold, a well known family.

MISS EDNA EASTMAN, a belle of Alameda. —Scharz, Photo.

in the south. She visited friends in the bay cities last summer and during her stay was the motif for many social functions. Butterfield and his bride will make their home in Los Angeles upon their return from their honeymoon.

TO ENTERTAIN SORORITY.

The Alpha Phi sorority members are to be guests of Miss Mary Van Orden next Saturday afternoon when she will entertain in compliment to her sister, Mrs. Philip Talbot Harris of Sisson. A picnic luncheon will be served at the Van Orden home and later the hostess and her guests will go to the Encinal Yacht Clubhouse for the afternoon. Mrs. Harris is a graduate of the University of California and while at college was a prominent member of the Alpha Phi sorority.

LEAVE FOR EAST.

Mrs. John Phillips and her daughter, Miss Marion Phillips, left yesterday for the east. They will go as far as Chicago and will visit in various cities for five or six weeks. On their return they will go to Long Beach for the remainder of the summer.

Mrs. U. B. Clark of Seattle, who has been the house guest of Mrs. Phillips for the past fortnight, has returned home.

AUTOMOBILE TRIP.

Mr. and Mrs. William Moller, Miss Annie Brown and a party of friends will leave tomorrow for a short automobile trip through Lake county.

EN ROUTE TO EUROPE.

Mr. and Mrs. Franklin Carter will leave Monday for New York, where they will remain for a fortnight before sailing for Europe. They will reside abroad for a year or two in the various musical centers.

COMPLIMENTARY LUNCHEON.

Mrs. Allen Faden entertained at her home Miss Mae Tillotson, who is to be a summer bride. The invited guests were Miss Mae Tillotson, Mrs. C. W. Perkins, Mrs. W. Bittel, Mrs. J. Retoll, Mrs. G. Brown, Mrs. G. mothers side to the one-time royal

WOMEN IN THE NEWS FLOORWALKER AND MILLIONAIRE'S DAUGHTER ELOPE

Henry Homer Hobbs Plays
Lochinvar With Miss Helen
Andrus.

NEW YORK, June 9.—Miss Helen Andrus, daughter of Congressman John E. Andrus, multi-millionaire, referred to as the "wealthiest man in congress," eloped with Henry Homer Hobbs, Yale 10, a floorwalker in a department store in Springfield, Mass., and they were married in the parsonage of St. George's Episcopal church, Stuyvesant square, this city, by Rev. R. Scott, at 4 o'clock yesterday.

No member of the bride's family, who, it is said, strongly opposed the match, was present. The congressman had no intimation that the marriage was to take place.

For two years before he was graduated Hobbs was one of the star players on the Yale football team.

Wanted Happiness

RENO, Nev., June 9.—Judge Moran has rendered a decree granting a divorce to Dr. Melcher Whise, formerly of Chicago, but awarding the former wife, Esther Whise, \$40 a month alimony. This case has excited much attention because of the prominence of the parties and the fact that the defendant was represented by local counsel as well as Chicago lawyers.

"When I married my wife," said the doctor, "I wanted a home. I wanted a place where I could go and discard cares. I simply ached for a home. And I was disappointed."

"I could not make my wife happy. I would praise and encourage her in every way I could. But I cannot recall any time in all our association when she said one encouraging, praising contented word."

"I would bring home fruit, for instance, no matter how I might feel, hoping to see a smile of appreciation or a sign of happiness. She would say, 'Oh, what did you bring home that rotten stuff for? I could have got it for half the money.' And so it was. I became a despondent. She became worse and worse in health. We were not happy."

Deride Gould

LONDON, June 9.—Frank Jay Gould's announced plan to get control of the Gaiety theater and, incidentally, to teach George Edwardes how to produce musical comedy is received with derision everywhere.

Before leaving for Paris today Gould refused to say whether his wife, whom the stage knew as the charming Edith Kelly, wishes to return to musical comedy.

In theatrical circles it is rumored that Gould's desire to control the Gaiety is inspired by his wife. It is whispered that when she played in "The City of Dreadful Night" at the Gaiety, Edwardes did not estimate her ability as a comic opera singer as highly as she did.

Said John Farrington, Edwardes' right hand man, at Daly's theater a correspondent of the Times:

"It is one thing for Gould to want to get Edwardes out and to gain control of the Gaiety and another thing to do it. Edwardes has the full confidence of the share holders."

Said another manager:

"Some other explanation must be sought of Gould's desire to be rid of Edwardes than a mere disinterested ambition to improve the Gaiety's management."

Her Eyes Were Closed

CHICAGO, June 9.—There is an interesting chapter in connection with the recent sale of the Elty Green acres in Game Assets Realization Company, which was not given out at the time the sale was announced, May 25.

It is a story which undoubtedly will be of interest to the family of the island. Miss Campbell is now in London with her sister. The wedding will be in July, in San Francisco.

ALAMEDA FOLK TO DEPART.

Mrs. John Rohr and her family have left their Alameda home and have gone to the Russian river for the season.

Miss Edna Eastman of Alameda will leave shortly for a visit in Marysville and also to Grass Valley.

CLUB LUNCHEON TODAY.

The Oakland New Century Club held a complimentary luncheon today in honor of the president, Mrs. Robert Watt, who returned home this week after a six months' sojourn in the south.

MARRIED NEXT SUNDAY.

Miss Ida Head, a belle of Napa and a former resident of Oakland, and B. H. Jones, prominent in this city, will be married in Napa next Sunday. The couple will reside in East Oakland, where a beautiful home has been furnished.

LEAVES FOR AUBURN.

Mrs. Charles M. Wood left today on a two weeks' visit to her brother, Harold T. Power, in Auburn. She was accompanied by Miss Grace Willson.

Flirt, But Don't Overeat, Is Advice to Schoolmarm

BOSTON, June 9.—A little, harmless flirting with people with whom you are acquainted will do much to rest the tired mind after the arduous duties of the school room.

This is one of the suggestions to young women school teachers made by Miss Annie Newell on relinquishing her position as teacher in the Boston public schools after forty-nine years' service.

"Be a live wire every minute, and don't eat too much," is another bit of advice.

OUR ANNUAL JUNE WHITE GOODS SALE IS NOW ON AT THE CORSET HOUSE

LET us help you get ready for the country by giving you undergarments at less price than you can buy the materials and make them for—a saving of time, thought and trouble. See them in our show windows.

THE first thing we want to do is to call your attention to the new porous fabric made for summer wear. It is strong smooth and beautifully cool. AVIA is the name and we are showing in cut today one of our new models made of it in a WARNER'S RUST-PROOF. It is the only cloth made for corsets that is as strong as the strongest batiste and as cool as the lightest summer net. Light, ventilating and hygienic.

SPECIAL PRICE

\$1.50 PER PAIR

COMBINATION GARMENTS. Have you tried them? If you haven't now is the time to do it. We will place on sale Saturday morning ten dozen only; made of fine nainsook, the corset cover is trimmed with two rows of linen lace and one row of embroidery insertion, with ribbon running through. The drawers have wide linen lace ruffle on bottom; regular value \$1.25 each. Special, 89c. Others at \$1.25, \$1.50, \$1.75, \$2.00 up to \$10.00 each.

CORSET COVERS have been very slow selling this season, and in order to reduce our big stock of 75c values all will go in with the 50c lot. Others reduced to 25c, 35c, \$1.00 and \$1.25.

DRAWERS. You know the bargains we gave during our January sale. We are going to duplicate again. They are all made of fine nainsook, cambric and batiste cloths and trimmed with the finest of embroideries and laces; regular value 75c and 85c pair. Special, 50c per pair.

WHITE PETTICOATS. If you want a good looking petticoat at less than the cost of the material you will find it here in this lot. Just twenty-five dozen in the lot of five different styles; all made of fine cambric and the flounces are embroidery and ribbon trimmed. Regular value \$2.00 and \$2.25. Special, \$1.50 each.

give Mrs. Green many unhappy moments and will make her more reluctant than ever to dispose of any more of her Chicago real estate holdings, for it deals with a coup executed by Frederick H. Bartlett, the real estate broker, and James W. Stevens, president of the Illinois Life Insurance Company, whereby they took the net profit of approximately \$225,000 before the property finally passed into the hands of the present owners.

In other words Cobe and McKinnon paid them \$225,000 in excess of the figure at which Bartlett had a few days before placed the property under contract of sale from Mrs. Green.

Lady Decies Out

LONDON, June 9.—Lady Decies drove to Hyde Park yesterday, the first time since she has been out since her operation. Lord Decies, who accompanied his wife, said:

"Lady Decies will surely be strong enough to participate in the coronation. I shall not let her overexert herself before then, owing to the ordeal of that day."

"The Gould family, which is now on the continent, is not expected in London until the middle of July."

"The family shows much confidence in her ladyship's recovery."

HUNDREDS ARE IN PURSUIT OF BRUTAL MURDERER

3000 GREET
'PERFECT
GIRL'

Miss Margaret Edwards Gives
Living Proof of Physical
Miracle.

Parent Blames Mothers for the
Sickly and Backward
Children.

Three thousand women were guests of
THE TRIBUNE this morning at the
Orpheum when Margaret Ed-
wards, "The Perfect Girl," presented
her physical miracle.

Three thousand women were turned
away because the big Twelfth street va-
udeville house could not accommodate
them. Those 3000 had departed, disap-
pointed, from the place soon after 11
o'clock, half an hour after the doors
were open.

Long before the announced 10:30 the
foyer of the theater and Twelfth street
for a block for a solid mass of girls,
flurry and womanhood. The girls were
bed along the sidewalk, on the curb and
in the thoroughfare to the car tracks.
It was an orderly, ladylike crowd despite
the eagerness displayed by wives and
mothers anxious to get their seats in-
side, there to gaze on the wonderful
body of Margaret Edwards, "The Perfect
Girl."

DOORS ARE OPENED.

At 11 the doors were flung open and
the crowd made a mad scramble for ad-
mission. In less than 10 minutes every
seat in the place was filled. The girls
were occupied and every inch of avail-
able standing room was taken. From
orchestra pit to the last row in the gal-
lery, there was a mass of murmuring,
eager women. Boxes were filled; in the
first row of the theater sat wives of
workmen; where the gallery gods hold
forth, high up near the ceiling, society
women were seen. All were guests of
THE TRIBUNE.

Women attendants took care of the
crowd. Mere man was eliminated. An
Adamless Eden was a reality. Women
were at the door; women did their best
to provide seats for everybody present;
women took care that the aisles were
not obstructed; women stagehands did
their work in back of the footlights. It
was Woman's Day in Oakland, and THE
TRIBUNE had made it so.

THE PERFECT GIRL ENTERS.

There was a roar of feminine applause
and a murmur of delight when Margaret
Edwards, made their appearance on the
stage. Clad in a simple red frock, the
girl was beautiful. The health-color in
her cheeks, the beautiful lines and
curves of head and face and the perfect,
elegant body and limbs, appar-
ent even when full of the physical exer-
cise of the girl a picture long to be remembered.
She took her place at the side of the
stage and listened while her mother ad-
dressed the vast audience. Then she
retired to her dressing room, appearing
in a few minutes in a blue dress and
which admirably displayed her perfect
physical development.

PROUD OF DAUGHTER.

Mrs. Edwards is proud of her daugh-
ter, and well she might be. The beauti-
ful girl, perfection in form and feature,
for you see that she is that. It sounds
like a miracle, but it is quite simple.
This is the secret:

"Intelligent exercise—steady exercise,
twice a day every day for twelve years.
That was the foundation. The exercise
was designed to develop symmetrically
and perfectly every muscle and every
organ in Margaret's body. With those
exercises there was attention given to
diet and to fresh air. That isn't much
of a secret, is it?"

Three thousand women guests of THE
TRIBUNE saw the result of twelve
years of training this morning, when
Margaret Edwards stepped onto the Or-
pheum stage. They saw the exercises
through which the girl had gone, watch-
ing her carefully as she illustrated them
and murmured their appreciation of the
curves and health with which the body
of the girl has been endowed.

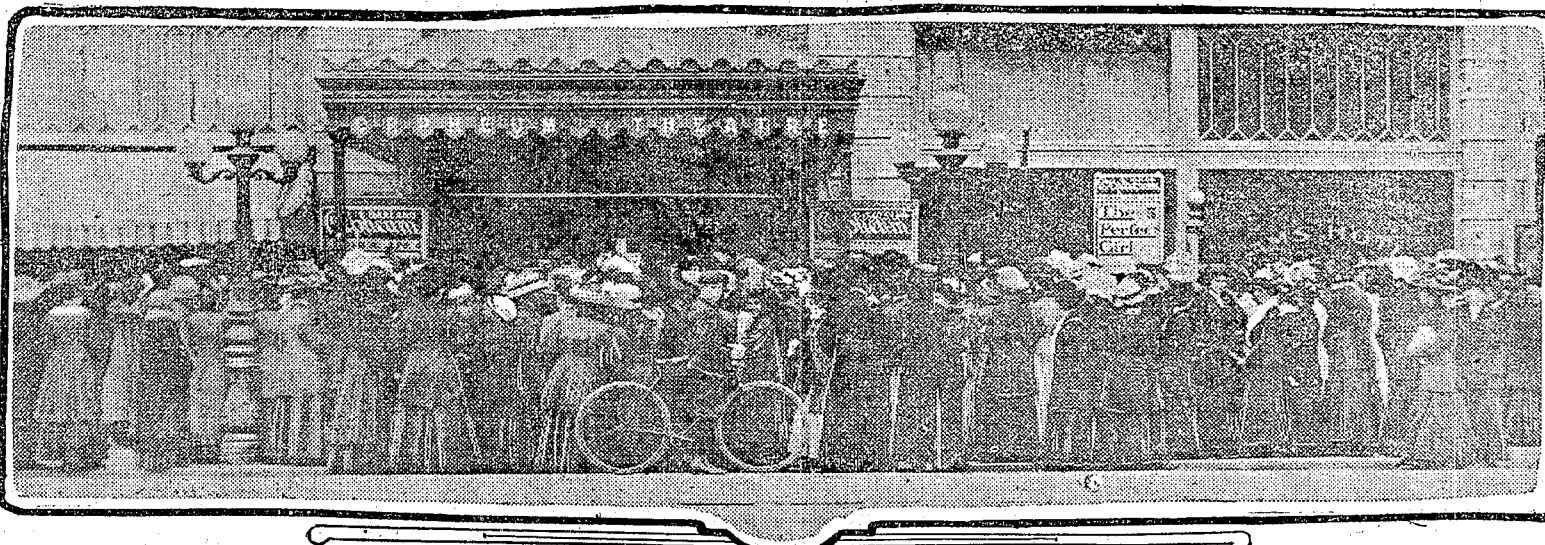

MRS. EDWARDS SPEAKS.

"We must remember, it is not a body,
it is not a mind, it is not a soul, we are
training," said Mrs. Edwards. "It is a
girl, and we must not try to divide her
into three parts, but train her physically,
mentally and morally."

"How many parents are aware that
often the environment of home and school
like make defective children; that the

eyesight in many instances is being im-
paired, deformities are being produced,
normal growth prevented, poor respira-
tion and poor circulation induced. Be-
cause of two long continued work in
the school room under unhygienic con-
ditions.

"Greece produced some of the greatest
minds the world has known and she at-
tributed her intellectual power to the
harmonious and simultaneous training of
mind and body."

"School athletics are too frequently
conducted in a building without a founda-
tion. Here in California, especially
endowed by nature, let us inaugurate a
new physical education that shall be an
education in fact as well as in name."

BLAMES MOTHERS.

"Please do not understand that I am
blaming the schools for all these defects.
Many mothers are failing early in their
training of girls in the old fashioned por-
table tasks. Home tasks, if rightly pro-
portioned to the strength of the growing
girl, constitute a most excellent body
and character building. If she under-
stands how to assume correct body pos-
ture she is using some of the very best
physical culture exercises."

"Many parents and teachers are under
the impression that it is the excessive
mental work which is breaking down
many of our girls. Diplomas and de-
bilities are thought to go hand in hand.
My experience in this relation has been
that it is not the mental work that is
breaking them down, but the lack of
adequate physical exercise to build them
up."

QUOTES PHYSICIAN.

"Dr. Stanley Hall says: 'The very best
test of a civilization is whether it pro-
duced and brings to full maturity more
than better children as the generations
pass. If it does not, no matter how ma-
terial prosperity increases it is degener-
ating and has started on the downward
path that leads to extinction.' Meas-
ured by this standard, where do we stand?
This question is vital to the future of
our country and the race. If radical
measures are not taken soon to train our
growing boys and girls, but especially
our girls, who are to be the mothers of
the future generation, ere long we will
be in the condition of France."
"I have made a patient, careful, sci-
entific study for many years of the causes
of the physical failure of our children,
and the remedy, and I am fairly con-
vinced that the cause is simply and
solely lack of physical training in the
home life and in the schools. The
study of the existing evils, the state
of California has placed in the hands of
the board of education of the state:
'Physical culture in the elementary
schools.'"

APPLAUSE IS GREAT.

The applause that followed Mrs. Ed-
wards' opening address was greater than
that drawn by any vaudeville star that
has appeared at the Orpheum in many a
full moon. Mothers, taken to task for
unintentional neglect, added their ap-
preciation without resentment, and
watched carefully while "The Perfect
Girl" went through those exercises that
had built a body so nearly perfect that
the world experts gaped.

The girl's shapely feet were exhibited
in a series of simple exercises which
clearly demonstrated the method for
developing flat feet. Kinks, abdominal and
hip exercises came in quick succession,
exercises that avoid or cure liver, stom-
ach and lung diseases were shown by
Miss Edwards. The working of the neck
and eyes to improve those and ex-
ercises to develop grace, symmetry and
poise of the body. Nothing was left un-
done to make of the exhibition a course
in right physical culture.

QUESTIONS ASKED.

Over and over again Mrs. Edwards ex-
plained the nature of the training, an-
swering the volley of questions that were
hurled at the stage by women in the au-
dience. She repeated the story of how
she had developed Margaret from a dy-
ing baby to a perfect child. Margaret
listened attentively to the questions of
anxious mothers and gladly went over
the exercises.

"You have gone down into the valley
of death to bring forth these children,"
said Mrs. Edwards, in conclusion. "Why
should you neglect their development
after you hold them in your arms? Yet
this is what nine mothers out of ten do."
"Demand, you mothers of Oakland, de-
mand of your board of education physi-
cal culture exercises for your children!"

OIL WAR WILL
BE FOUGHT
IN WEST

Rockefeller and Gates Line Up
Their Forces for Colorado
Struggle.

Denver to Be the Rate Battle-
ground of Big Rival
Corporations.

DENVER, Col., June 9.—The Times

says: John D. Rockefeller and John W.
Gates, owners of the two greatest
oil concerns in America, are prepar-
ing to commence a bitter rate war in
Colorado. This announcement comes
from an authoritative source and has
brought great uneasiness to the inde-
pendent concerns operating in Colo-
rado.

The invasion of Denver territory
three weeks ago by the Texas Oil
Company, owned by Gates, is said to
be the cause of the proposed fight.
The Texas Oil Company recently
purchased a tract of land three blocks
in extent near the Colorado & South-
ern yards. It has erected a temporary
distributing station and already is op-
erating four tank wagons.

The trouble between the two finan-
ciers came to a head in Colorado a
little more than a year ago, when the
Texas company opened a distributing
plant at Pueblo. The rate war that
followed with the Standard Oil Com-
pany has been confined to Pueblo, but
now that its rival has invaded Denver,
the Standard is said to be about to
commence a general campaign to
drive the Gates concern from the state.

TYPISTS WANTED
BY THE GOVERNMENT

The United States Civil Service
Commission announces that an exam-
ination for the position of stenog-
rapher and typewriter, both male
and female, in the field service for
the Twelfth Civil Service District, and
for male stenographer and typewriter
in the department service at
Washington, will be held on July 25,
1911.

There are excellent opportunities for
appointment, both in Washington
City and at various places in the
Twelfth Civil Service District, and
qualified applicants are urged to en-
ter the examination.
Application blanks and further in-
formation may be obtained from the
secretary of the Twelfth Civil Service
District, room 241 Postoffice build-
ing, San Francisco.

You own the board of education; you
can demand what you will of them."

ANOTHER EXAMPLE.

Little Beatrice Barragan was also ex-
hibited to the audience as an exam-
ple of what Mrs. Edwards' system can do
to develop the body. Preceding the ex-
hibit Miss Caroline Ehrmann, now play-
ing with the Five Armanis at the the-
ater, delighted the audience with two
soprano solos.

It was a great day for the women of
Oakland. THE TRIBUNE had supplied
in a few hours a course in right train-
ing that will mean the physical eleva-
tion of many young children.

"It is a thing like this," said an Oak-
land woman, an educator, this morning,
"that makes a newspaper a necessity.
THE TRIBUNE has done more today
for the health of the community which
it serves than a thousand gallons of
medicine will accomplish in ten years."

MONDAY TO SEE LAST OF
ALAMEDA STEAM TRAINS

Electric Coaches to Replace Locomotive
and Cars on Lines in the Enci-
nal City

ALAMEDA, June 9.—All of the
steam cars on the south shore local
line will be replaced by the new elec-
tric coaches Monday morning. The
new electric cars have been operated
in this city for the last week with two
of the steam coaches and engines, but
the crews of the electric cars have be-
come competent to operate them and
they will replace the old steam trains.

The first electric car will leave High
street station at 5:40 o'clock in the
morning and will be operated along
the same route as the steam cars, go-
ing to the Alameda mole. As the
work on the north side loop is not
complete, the horseshoe train will not
be operated for several weeks.
During the hours of rush traffic
from 5 until 7 o'clock at night, there
will be three electric trains of five
and six coaches each run over the line.
Only two coaches will be operated
during the middle of the day. The
first car will leave High street station
Sunday morning at 6:40 o'clock,
an hour later than on week days. The
new trains will make the run from
High street to the Alameda mole in
the schedule of twenty minutes, con-
necting with the ferry boats.

Court Orders Transcript of the
Testimony Given to
Prisoners.

Time for Pleading Postponed
by Judge Willis Until
June 16.

LOS ANGELES, June 9.—The first im-
portant battle between the prosecution
and the defense in the cases of B. H.
Conners and A. P. Maple and E. I. Ben-
der, charged with the attempt to injure,
by the use of violent explosives, the
Los Angeles county hall of records, re-
sulted in a victory for the defense when
Judge Willis of the Superior Court today
gave another week to the defendants in
which to prepare to plead and ordered
the prosecution to deliver the transcript
of testimony taken before the grand jury
to their attorney at least 24 hours before
the time set.

Expectation of a legal skirmish crowd-
ed the courtroom and all the attorneys
for the defendants, except Clarence S.
Darrow, who is not in the state, were
present. The prosecution was represented
by G. Ray Horton.
When the case of B. H. Conners was
called, Attorney Le Compte Davis ad-
dressed the court, and declared that the
defendants were not prepared to plead
until the transcript of testimony was
furnished to them. Judge Willis there-
upon ruled that they were entitled to
the transcript and asked the prosecution
when it could be delivered to them. At-
torney Horton, in reply, said that about
1000 pages of testimony had been taken
and it would take some days to complete
all its transcription. The three defend-
ants were thereupon given until June 16
to prepare to plead, with the under-
standing that there would be a further
continuance if the transcript was not
delivered to their attorneys 24 hours be-
fore the day set.

LEFT OWN COAT; STOLE
2 COATS, RAZOR, SHOES

A stranger stepped into the barber shop
of E. Steinberg at 331 Broadway, and re-
moving his coat, awaited the opportunity
of being shaved. Steinberg was in an-
other part of the shop and when he came
to shave the man the stranger had de-
parted, taking two coats in place of his
own, a razor and a pair of shoes. Stein-
berg reported his loss to the police, stat-
ing that he was holding the coat left by
the thief as evidence.

Man, Wife and Two Children
Murdered and the Slayer
Escapes.

PORTLAND, Ore., June 9.—Wili-
am Hill, his wife and their two small
children, were beaten to death with
an axe some time last night in their
home at Ardenwald, a suburb of this
city. The four bodies were discovered
today by Mrs. C. B. Matthews, a
neighbor, who casually called at the
house. Two sheriff's posse and hun-
dreds of volunteers are searching the
wild country around the town in the
hope of finding some trace of the
murderer.

When Mrs. Matthews reached the
Hill home no answer was given to her
knock at the door. Finding it un-
locked, she entered and discovered the
bodies of the two young children in
the bedroom. Their heads had been
split open with an axe. In an adjoin-
ing room lay the body of Mrs. Hill,
her skull crushed in with the same
instrument. Hill's body was found in
another room, also with the head
crushed.

Mrs. Matthews gave the alarm and
the police failed to find any clue of
the murderer about the house. In
the meantime citizens had started into
the rough country back of the town
and the sheriff of Multnomah and
Clackamas counties have organized
posses and joined in the search.
The town is in a state of wild ex-
citement.

WOMAN ATTACKED.
An examination of the bodies of
Mrs. Hill and the little girl, Dorothy,
aged 6, showed that they had been
assaulted. The police believe that
Hill first was killed, then the little
boy, Philip, who was 9 years of age.
Following the recent murder of
little Barbara Holzman, who was as-
saulted and killed in a rooming house
in this city, a letter was received at
police headquarters, purporting to
have been written by the murderer,
in which the writer stated that he
would soon commit a more terrible
crime. It is thought that all of the
murders may have been committed
by the same person.

DR. BROWN AGAIN ELECTED DIRECTOR

Former Pastor of Local Church Retained On the Board of Home Missions.

Dr. Charles R. Brown, who recently left the pastorate of the First Congregational church, Oakland, and is now director of the Yale Divinity school in New Haven, Conn., was re-elected a director of the Home Mission Society at its business session yesterday in San Francisco, but not without opposition, due to the fact that he is no longer a resident of the state of California, which he was, however, chosen to represent. George W. Scott of Alameda, a prominent Congregationalist, received twelve votes to thirteen cast for Dr. Brown.

COURT SUSTAINS CITY'S DEMURRER

Injunction Proceedings Against Oakland and Antioch R. R. Dismissed.

After considerable deliberation on the part of the court, Superior Judge William H. Waste this afternoon sustained the demurrer brought by the city of Oakland in the injunction proceedings instituted by the railroad against the city. The city council has asked for the injunction against the railroad along Shafter avenue, and the order to show cause was dismissed.

CITY AND WATER CO. PREPARING FOR LEGAL WAR

Initial Move Will Be Made as Soon as New Council Is in Office.

Attorneys for the city and for the Peoples Water Company are preparing to clash in legal battle, to be in readiness for the first move to be made after July 1, on which date the resolution passed by the City Council will go into effect. Officials of the Peoples Water Company declared that should the council fail to grant an increase in the rates, resort would be had to the courts and it is probable that this litigation will take the form of a petition for an injunction against the city enforcing its resolution passed at a recent meeting.

U. S. TROOPS WILL LEAVE THE BORDER

Second Step Taken Toward the Withdrawal From Mexican Boundary.

WASHINGTON, June 9.—The second step, in the gradual withdrawal of the armed force of the United States from the vicinity of Mexico was taken today. President Taft approved a War Department order which will return to their posts the 4000 soldiers at Galveston, Tex., and the 1500 at San Diego, Cal. This movement, which will begin in a few days, follows the withdrawal of the 1500 marines from Guantanamo, Cuba. The troops at Galveston are of the coast artillery corps. They will be sent back to their stations on army transports.

CHARGES AGAINST KEITH ARE TO BE INVESTIGATED

SACRAMENTO, Cal., June 9.—That Governor Johnson will order an investigation into the charges made against Douglas Keith, superintendent of the California Institute for the Deaf and the Blind at Berkeley, was made known today when he announced that he considered the charges sufficiently serious to be looked into. The Governor said, in discussing the matter:

"I am more than gratified by the successful results I obtained by the use of the Cuticura Remedies. For several years I was troubled with my scalp very badly affected with dandruff and scales. My scalp itched terribly at times and my hair fell out. My coat collar would be actually white with the dandruff that bedeviled me. I frequently rubbed them to my customers, and they think a great deal of them." (Signed) John F. Williams, 207 Norfolk Street, Dorchester, Boston, Mass., July 23, 1910.

Something worth buying at all is worth a moment's consideration. No matter what the cost, true satisfaction in a piano demands that you use care and mature deliberation in your selection. If one buys on cheapness alone the lasting value of your piano will be unsatisfactory.

Every one a piano of quality and built with one idea—giving the purchaser SOMETHING WORTH BUYING. Worthy of your confidence—assuring you lasting satisfaction, a piano that in generations to come will merit the decision you make today. Consider the future satisfaction in your purchase more than the immediate present cheapness of price.

OAKLANDERS ACCORD MABEL RIEGELMAN GRAND OVATION

MISS MABEL RIEGELMAN, whom Oaklanders gave rousing welcome home last night. —Webster, Photo.

To a crowded and very enthusiastic house at the Macdonough theater last night Miss Mabel Riegelman, this city's musical pride, made her bow and received in return an ovation which must have made her glad to be at home again. This newest musical prodigy from the "Golden West," gifted with a beautiful voice and excellent dramatic temperament, has shed new glory upon her home city, and the city in return was glad of this opportunity to show its appreciation of her.

It has been several years since this city has heard Miss Riegelman, in which time she has been making a name and fame for herself, and, moreover, has been doing wonders with that beautiful voice of hers. Since her first days of study in this city, under her first teacher, Louis Crepaux, the well known instructor of San Francisco, she has gone on steadily improving until today she has won for herself a place among the most promising young musicians of the country. All this those who had the pleasure of hearing her last night realized, for it was an excellent program which she gave, one excellently adapted to display the many-sided qualities of her art.

STRONG DRAMATIC POWER.

It was with brilliant tone production and excellent dramatic power that the historic side of Miss Riegelman's ability was shown; this in her aria from "Mme. Butterfly." This opera, one of the most gorgeous of the modern school, gave opportunity for all the splendor of coloring that could be desired, and here one at once classed Miss Riegelman as one of the best of the younger prima donnas. But it was in the more appealing songs from "Humperdinck's" "Hansel and Gretel" that one got the full charm of this young singer. A delightful personality has the singer, and a charming rendition she gave of the music of this most charming of modern compositions. There was more than a mere suggestion in her manner and appearance both of Lina Abarbanel and Bella Allen, two famous interpreters of the two leading roles with the Metropolitan company, and it was with a distinct feeling of envy for what we are to lose, that it is understood Miss Riegelman is to sing in the opera in English during the coming season in Chicago. Nor was the more conventional style of music lacking in the program given, with the example of Michael's famous aria from the older "Carmen." And here, too, the personality of the singer, combined with many mannerisms and a wealth of tone, produced an effort of distinction, too often lacking in renditions of the music of this role.

But the singer's versatility was given a new light in the rendition of the simpler ballads of the old English school, all too often pale and uninteresting. In the same class one must put Frederick Maurer's "The Song in the Night," which was delicious in its air of delicacy and refinement. Maurer, who was the accompanist of the evening, shared in the applause given this song, and merited it all, both for his composition and the excellence of his support to the singer.

It must have been a happy occasion for Crepaux, Miss Riegelman's first teacher, who was present in the audience; a dis-

ting gratification to him to see the highly successful results of his training and the prolonged ovation the singer received. Shear after sheaf of flowers were heaped upon the fair cantatrice, who was a most attractive figure in a gown of flame-colored chiffon over white satin, making a fitting background for the wealth of melody poured out.

WINS \$8000 SUIT AGAINST REMILLARD CO.

Edward Horton won his suit against the Remillard Brick Company in Judge Wast's court yesterday and was awarded \$8000, which he claimed was due him as commissions. The company had contested the suit on the ground that the increase in business had been due to increased capital and not to the personal effort of Horton.

Oratorical Competition Will Be Held in St. Mary's College Gymnasium.

Six speakers will take part in the annual oratorical contest for the Cottle medal to be held tonight in the alumni gymnasium of St. Mary's College. They are William Lowery, '11; William Davis, '11; Charles Moul, '11; William Russell, Daniel Doran and Gerald Brusher. The judges selected for the contest are Judge Everett J. Brown of Oakland, Judge Frank J. Murasky, '83, of San Francisco, and Rev. Father William P. Sullivan, '97, of St. Mary's Cathedral, San Francisco. The medal to be awarded is the gift of Rev. Father Cottle, a graduate of St. Mary's College. Besides the orations, a musical program will be given by the college orchestra.

1908 CLASS BANQUETS.
UNIVERSITY OF CALIFORNIA, June 9. — Thirty graduates of the class of 1908 at the university gathered in San Francisco last night for the monthly class dinner, which was followed by a theater party. The class of 1908 was the first to adopt the practice of holding monthly reunion dinners.

High Quality for the PUBLIC SMALL PROFITS for LEWIS

That's the story in a nutshell. By offering the best in quality and satisfied with the smallest profits I have built up an enormous business. People who bought meat from me the first day I opened this shop are still my customers, as are thousands of new ones. Quality and price have held them to me. I am the originator of the small-profit plan and with this system undersell any market in California. Always bear in mind

BEATINGS BEGAN ON HONEYMOON, SAYS

Claiming that before their honeymoon trip was over her husband began to beat and otherwise abuse her, Mrs. Aldine Rufford filed suit for divorce today in the superior court, the defendant being Luther Rufford. The couple were married in September, 1909, and it was averred in the complaint that Rufford was in the habit of returning home late at night and relieving the monotony of the household by administering a beating to his spouse.

BOY SCOUTS TO ENJOY SUMMER

Vacation Plans Announced by Leaders of Local Patrols.

Announcement of the plans for the summer operations of the Oakland division of the Boy Scouts of America was made this morning by Professor Victor Ligia of the University of California, who has been appointed to have charge of the Oakland and Berkeley patrols. Among the activities of the Oakland division will be a two weeks' summer camp at Niles in July, attended by about 200 boys, patriotic drills and exercises for the Fourth of July, several long "hikes" and drills and scout exercises and training.

In the announcement today was issued a call for the patrols temporarily disbanded a few weeks ago to reassemble. Among patrols to whom the call has been sent to reassemble for mustering in are those of Captain E. L. Vander Nulien, Sergeant J. Griffin's cycle patrol and Lieutenant Finley's patrol.

Troops will be enrolled at all playgrounds under the following leaders: Bushrod, Elbert Vall; DeFremercy, Raymond Scott; Clauson, Chester Weaver; Tompkins, R. P. Wisecarver. Next Saturday patrols and troops will take a hike to the ranch of Captain Vander Nulien to pick out a camping ground as the captain has invited them to spend three or four

days later on at the ranch in Redwood Canyon.

Two new patrols have been organized, the scoutmasters being the Rev. J. Pruden and the Rev. Herbert Barnes, both of Baptist churches. Professor Hermann Kower of the University of California and a new member of the playground commission, has consented to be a scoutmaster.

LIGHTS TO SHINE ON MERRYMAKERS

Thousands of Glimmering Bulbs to Be Used at Oroville.

OROVILLE, June 9.—Within the next few days all the electrical illuminations for the Oroville Water Carnival, which is to be held on June 16 and 17, will be installed. For over a mile up and down the Feather river myriads of vari-colored electric lights have been strung. Other lights have been submerged in the water, while still others have been massed together in fantastic figures and designs. The great bridge across the Feather river will be outlined with electric lights. A great Maypole will be erected over the dancing platform. Everywhere there will be lights shedding their soft glow upon the waters of the river. The feature of the evening celebration will be the coronation pageant down the river. Beginning far up the river the king and queen, upon their royal barges, escorted by attendants and followed by a long train of illuminated floats, will proceed down the river. As the royal procession moves along the rocks and the gorges in the high bluffs will be lighted up with burning red fire.

ROCKETS TO ANNOUNCE. Skyrockets shooting in every direction will announce the coming of the rulers of the carnival. The procession will move to a great open air platform built across the Feather river. There the coronation ceremony will be held and the king and queen will be formally invested with power over all the people of Oroville and their guests for the two days of the celebration.

The king, with the consent of his royal consort, will command his subjects that for two days they give themselves over to merriment and joy. The coronation ball will then be started and until morning the dance will continue. The feature of the night celebration will be the illumination of the river, the coronation parade, the coronation ceremonies and the grand ball.

During the day baseball games have been arranged and a great parade in which many handsomely decorated autos will be seen. There will also be water fights, carnival attractions, music in abundance and everything that goes to make a carnival in fact as well as in name.

HEADQUARTER CLERKS TO KEEP THEIR JOBS

WASHINGTON, June 9.—It will be the good news to the many headquarter's clerks throughout the country to know that the war department does not intend to make any dismissals as a result of the adoption of the new policy of re-establishing the army divisions and curtailing the department establishments. The excess clerks at department quarters abandoned or diminished in importance will be transferred to other headquarters where they may be profitably employed and the reductions to be effected in the number of the force will follow naturally through the usual resignations and casualties, in which case the vacancies will not be filled.

VAUDEVILLE STARS COMING TO LOCAL ORPHEUM SUNDAY

ED WYNN, with P. O'Malley Jennings at the Oakland Orpheum.

The excitement this week at the Orpheum is at its height, with "The Perfect Girl" as the attraction that is packing the big vaudeville playhouse to the doors, afternoon and night. Some mighty smart entertainers are to be added to the vaudeville bill that comes on Sunday and the outlook is for a continuation of the magnificent business the Orpheum enjoys. One of the new features next Sunday that will contribute to the gaiety of nations is the performance of Ed Wynn and P. O'Malley Jennings. A lot of people will remember Wynn as the "freshman" whose wonderful Panama hat played so many antics on the stage. Wynn has a new partner this year in the person of P. O'Malley Jennings, who was the Englishman in the production of "The Houseboat" at the Orpheum several seasons ago. The two have a highly diverting act this year, and are registering a big hit at the Orpheum in San Francisco. They cross the bay to the Oakland Orpheum next Sunday.

CLIVE RETURNS. Another pleasant feature will be the return of Henry Clive, whose travesty of "Magic" is highly amusing. He is assisted by Miss Mae Sturges, and the twain provide abundant amusement of the right sort. William H. Macart and Ethylene Bradford will appear on Sunday in a great comedy play, "A Legitimate Hold-up," which is said to be one of the gems among vaudeville sketches. The "Musical Girls," five maidens who were formerly the stars of the famous Boston Fadettes, will be prominent among the newcomers on Sunday. There will be a lot of other novelties on the new bill, which has the look of being a program of the "cracker-jack" sort—right up to the Orpheum's high standard.

STOKES REFUSES TO ABANDON CASE

The Millionaire to Prosecute Two Women Who Shot Him.

NEW YORK, June 9.—Prosecution of the two women who shot W. B. Stokes, the aged millionaire proprietor of the Hotel Ansonia, will begin as soon as Stokes' condition enables him to appear against them. His attorney reiterated this statement today in reply to rumors that the case might be dropped. At the hospital Stokes was reported as improving. It will be several days, however, before he is past the danger of blood poisoning. Meanwhile the women accused, Miss Lillian Graham and Miss Ethel Conrad, will be held awaiting examination. At present the police are somewhat at sea owing to the conflicting stories told by the principals in Wednesday night's shooting. Each young woman insists that she alone fired the shots that struck Stokes. Miss Conrad says that the wounded man came to their apartment looking for her. Miss Graham says that she had engaged a lawyer several days before to sue the millionaire for defamation of character.

WHITELAW REID ILL; WILL MISS RECEPTION

LONDON, June 9.—Whitelaw Reid, the American ambassador, has been confined to his room for a week with a cold. He is much better but his physician has advised a further rest. Reid's son-in-law, John Hubert Ward, will receive with Mrs. Reid the guests at the dinner and dance to be given at Dorchester House tonight in honor of John Hays Hammond, special United States ambassador to the coronation of King George, and Mrs. Hammond.

KING NAMES AIDS FOR JOHN HAYS HAMMOND

LONDON, June 9.—John Hays Hammond, the special United States ambassador to the coronation yesterday received notice of the appointment of his British aids by King George. Baron Sandhurst is to act as Hammond's civil attaché and Captain C. T. G. Sowerby, British naval attaché at Washington, and Lieutenant-Colonel Bernard R. James, formerly British military attaché at Washington as naval and military attaché, respectively.

CARNIVAL QUEEN ORDERS REJOICING

The Sixth Annual Fiesta of the Women's Club Opened in Modesto.

MODESTO, June 9.—The sixth annual fiesta of the Women's Improvement club opened last night. At 7 o'clock the queen's coronation procession started, traveling various streets to the grounds. Miss Ina Dunlap was crowned queen of joy by mayor-elect George J. Wren. With a wave of her scepter, she ordered three days of rejoicing for her subjects. The fiesta is in the nature of the old street carnivals. Concessions and entertainments of various natures are provided. The grounds are decorated. For three nights the people of the vicinity will give themselves over to the fun and frolic of the year.

RENO LAWYERS FIGHT WITH FISTS IN COURT

RENO, Nev., June 9.—Attorney W. A. Massey, president of the Washoe County Bar association, and Attorney D. H. Harrison engaged in a fisty battle yesterday in the district court of Judge French, during the course of a civil suit in which the two were arrayed against each other. Massey represented the defendant, Reno traction, while Harrison appeared for a client suing the company for damages alleged to have been received by being struck by a street car. The only injuries sustained were by Massey, who bruised his cheek when it came in contact with a cuspidor. Both made profuse apologies to the court, but failed to apologize to each other. Just before the court adjourned this afternoon, Judge French fined the barristers \$25 each for contempt of court. The fine was paid.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by Osgood, Bros.' drug stores.

TRANSFER OF COAL LANDS IS PROBED

Federal Grand Jury Continues Investigation of Pittsburg Concern.

PITTSBURG, June 9.—The federal grand jury continued its investigation into the affairs of the Pittsburg Coal Co. and the Monongahela River Consolidated Coal & Coke Company relative to the transfer of coal and coking properties to the H. C. Frick Coke Company, a subsidiary of the United States Steel corporation, to ascertain whether there has been an attempt to create a monopoly in the coking industry. The transfer negotiations were officially approved late yesterday, notwithstanding that the government probe into the matter had started by the hurried reassembling of the May grand jury. E. J. Taylor, chief engineer of the Pittsburg Coal Company, who was before the grand jury when adjournment was taken late yesterday, was the first witness called today. He is likely to testify to the location of the coal concerned in the deal and to the supply of coking coal in the Pittsburg district.

CONFIDENTIAL CLERK OF THREE GOVERNORS DIES

GUTHRIE, Okla., June 9.—Mrs. Albina Bekemeyer, who was acting governor of Oklahoma territory on several occasions, died here early today. In the territorial days she was a confidential clerk of Governor Barnes, Governor Ferguson and Governor Franz. Mrs. Bekemeyer was a pioneer newspaper correspondent and was the wife of Otto Bekemeyer, a local newspaperman.
